As used in this section, the “practice of telemedicine” means the practice of medicine using communication tools such as electronic communication, information technology or other means of interaction between a licensed health care professional in one location and a patient in another location, with or without an intervening health care provider, and typically involves secure real time audio/video conferencing or similar secure audio/video services, remote monitoring, interactive video and

by replicating the interaction of a traditional in person encounter between a provider and a patient. The practice of telemedicine occurs in this state when the patient receiving health care services through a telemedicine encounter is physically located in this state.

(c) It is not unlawful for a person:

(1) Who is a licensed health care provider under this code to act within his or her scope of practice;

(2) Who is not a licensed health care professional in this state to provide first aid care in an emergency situation; or

state present in the state as a member of an air ambulance treatment team or organ harvesting

(8) A physician or podiatrist holding one or more unrestricted licenses granted by another

(C) He or she is not authorized to practice at a health care facility or clinic, acute care facility or urgent care center located in this state, but the physician may accompany the patient to the facility and consult; and

(D) The physician or podiatrist may be permitted, by written permission from the executive director, to extend his or her authorization to practice medicine for a maximum of seven additional consecutive days if the requester shows good cause for the extension.

(e) A physician or podiatrist who does not hold a license issued by the board and who is practicing medicine in this state pursuant to the exceptions to licensure set forth in this section may practice in West Virginia under one or more of the licensure exceptions for no greater than a cumulative total of thirty days in any one calendar year.

(f) The executive director shall send by certified mail to a physician not licensed in this state a written order that revokes the privilege to practice medicine under this section if the executive director finds good cause to do so. (g) A person who engages in the unlawful practice of medicine and surgery or podiatry while holding a license issued pursuant to this article which has been classified by the board as expired for ninety days or fewer is guilty of a misdemeanor and, upon conviction, shall be fined not more than $5,000 or confined in jail not more than twelve months, or both fined and confined.

allegations of the unlawful practice of medicine and surgery by an individual who is licensed under
another article of this chapter, the board shall refer the complaint to the appropriate licensing
authority. Additionally, whenever the board receives credible information that an individual is
engaging in the unlawful practice of medicine and surgery or podiatry in violation of this section,
the board may report such information to the appropriate state and/or federal law enforcement
authority and/or prosecuting attorney.
