The board may consider identified health care priorities in developing its fee schedule to the extent permitted by applicable federal Medicaid laws, and may recommend higher reimbursement rates for basic primary and preventative health care services than for other services. In identifying basic primary and preventative health care services, the board may consider factors, including, but not limited to, services defined and prioritized by the basic services task force of the health care planning commission in its report issued in December of the year 1992; and minimum benefits and coverages for policies of insurance as set forth in section fifteen, article fifteen, chapter thirty-three of this code and section four, article sixteen-c of said chapter and rules of the Insurance Commissioner promulgated thereunder. The purpose of each board is to assist and enhance the role of the single state agency in carrying out its mandate by acting as a means of communication between the health care provider community and the agency.

(b) It is the intention of the Legislature that this chapter shall also immunize cooperative agreements approved and subject to supervision by the authority and activities conducted pursuant thereto from challenge or scrutiny under both state and federal antitrust law: Provided, That a cooperative agreement that is not approved and subject to supervision by the authority shall not have such immunity.

(a) Definitions. — As used in this section the following terms have the following meanings:

(1) “Academic medical center” means an accredited medical school, one or more faculty practice plans affiliated with the medical school or one or more affiliated hospitals which meet the requirements set forth in 42 C. F. R. 411.355(e).

(4) "Commercial health plan" means a plan offered by any third party payor that negotiates with a party to a cooperative agreement with respect to patient care services rendered by health care providers.

(7) "Qualified hospital" means an academic medical center or teaching accredited academic hospital, which has entered into a cooperative agreement with one or more hospitals or other health care providers but is not a critical access hospital for purposes of this section.

(b) Findings. —

(1) The Legislature finds that the state’s schools of medicine, affiliated universities and teaching hospitals are critically important in the training of physicians and other healthcare providers who practice health care in this state. They provide access to healthcare and enhance quality healthcare for the citizens of this state.

(2) A medical education is enhanced when medical students, residents and fellows have access to modern facilities, state of the art equipment and a full range of clinical services and that, in many instances, the accessibility to facilities, equipment and clinical services can be achieved
more economically and efficiently through a cooperative agreement among a qualified hospital and one or more hospitals or other health care providers.

(c) Legislative purpose. — The Legislature encourages cooperative agreements if the likely benefits of such agreements outweigh any disadvantages attributable to a reduction in competition. When a cooperative agreement, and the planning and negotiations of cooperative agreements, might be anticompetitive within the meaning and intent of state and federal antitrust laws the Legislature believes it is in the state's best interest to supplant such laws with regulatory approval and oversight by the Health Care Authority as set out in this article. The authority has the power to review, approve or deny cooperative agreements, ascertain that they are beneficial to citizens of the state and to medical education, to ensure compliance with the provisions of the cooperative agreements relative to the commitments made by the qualified hospital and conditions imposed by the Health Care Authority.

(d) Cooperative Agreements. —

(1) A qualified hospital may negotiate and enter into a cooperative agreement with other hospitals or health care providers in the state:

(A) In order to enhance or preserve medical education opportunities through collaborative efforts and to ensure and maintain the economic viability of medical education in this state and to achieve the goals hereinafter set forth; and

(B) When the likely benefits outweigh any disadvantages attributable to a reduction in competition that may result from the proposed cooperative agreement.

(2) The goal of any cooperative agreement would be to:

(A) Improve access to care;

(B) Advance health status;

(C) Target regional health issues;

(D) Promote technological advancement;

(E) Ensure accountability of the cost of care;
(F) Enhance academic engagement in regional health;
(G) Preserve and improve medical education opportunities;
(H) Strengthen the workforce for health-related careers; and
(I) Improve health entity collaboration and regional integration, where appropriate.

(3) A qualified hospital located in this state may submit an application for approval of a proposed cooperative agreement to the authority. The application shall state in detail the nature of the proposed arrangement including the goals and methods for achieving:

(A) Population health improvement;
(B) Improved access to health care services;
(C) Improved quality;
(D) Cost efficiencies;
(E) Ensuring affordability of care;
(F) Enhancing and preserving medical education programs; and
(G) Supporting the authority’s goals and strategic mission, as applicable.

(4) (A) An application for review of a cooperative agreement as provided in this section shall be submitted and approved prior to the finalization of the cooperative agreement, if the cooperative agreement involves the merger, consolidation or acquisition of a hospital located within a distance of twenty highway miles of the main campus of the qualified hospital.

(B) In reviewing an application for cooperative agreement, the authority shall give deference to the policy statements of the Federal Trade Commission.

(C) If an application for a review of a cooperative agreement is not required the qualified hospital may apply to the authority for approval of the cooperative agreement either before or after the finalization of the cooperative agreement.

(e) Procedure for review of cooperative agreements. —

(1) Upon receipt of an application, the authority shall determine whether the application is complete. If the authority determines the application is incomplete, it shall notify the applicant in
writing of additional items required to complete the application. A copy of the complete application shall be provided by the parties to the Office of the Attorney General simultaneous with the submission to the authority. If an applicant believes the materials submitted contain proprietary information that is required to remain confidential, such information must be clearly identified and the applicant shall submit duplicate applications, one with full information for the authority's use and one redacted application available for release to the public.

(2) The authority shall upon receipt of a completed application, publish notification of the application on its website as well as provide notice of such application placed in the State Register. The public may submit written comments regarding the application within ten days following publication. Following the close of the written comment period, the authority shall review the application as set forth in this section. Within thirty days of the receipt of a complete application the authority may:

(i) Issue a certificate of approval which shall contain any conditions the authority finds necessary for the approval;

(ii) Deny the application; or

(iii) Order a public hearing if the authority finds it necessary to make an informed decision on the application.

(3) The authority shall issue a written decision within seventy-five days from receipt of the completed application. The authority may request additional information in which case they shall have an additional fifteen days following receipt of the supplemental information to approve or deny the proposed cooperative agreement.

(4) Notice of any hearing shall be sent by certified mail to the applicants and all persons, groups or organizations who have submitted written comments on the proposed cooperative agreement. Any individual, group or organization who submitted written comments regarding the application and wishes to present evidence at the public hearing shall request to be recognized as an affected party as set forth in article two-d of this chapter. The hearing shall be held no later
than forty-five days after receipt of the application. The authority shall publish notice of the hearing on the authority’s website fifteen days prior to the hearing. The authority shall additionally provide timely notice of such hearing in the State Register.

(5) Parties may file a motion for an expedited decision.

(f) Standards for review of cooperative agreements. —

(1) In its review of an application for approval of a cooperative agreement submitted pursuant to this section, the authority may consider the proposed cooperative agreement and any supporting documents submitted by the applicant, any written comments submitted by any person and any written or oral comments submitted, or evidence presented, at any public hearing.

(2) The authority shall consult with the Attorney General of this state regarding his or her assessment of whether or not to approve the proposed cooperative agreement.

(3) The authority shall approve a proposed cooperative agreement and issue a certificate of approval if it determines, with the written concurrence of the Attorney General, that the benefits likely to result from the proposed cooperative agreement outweigh the disadvantages likely to result from a reduction in competition from the proposed cooperative agreement.

(4) In evaluating the potential benefits of a proposed cooperative agreement, the authority shall consider whether one or more of the following benefits may result from the proposed cooperative agreement:

(A) Enhancement and preservation of existing academic and clinical educational programs;

(B) Enhancement of the quality of hospital and hospital-related care, including mental health services and treatment of substance abuse provided to citizens served by the authority;

(C) Enhancement of population health status consistent with the health goals established by the authority;

(D) Preservation of hospital facilities in geographical proximity to the communities traditionally served by those facilities to ensure access to care;
(E) Gains in the cost-efficiency of services provided by the hospitals involved;
(F) Improvements in the utilization of hospital resources and equipment;
(G) Avoidance of duplication of hospital resources;
(H) Participation in the state Medicaid program; and
(I) Constraints on increases in the total cost of care.

(5) The authority’s evaluation of any disadvantages attributable to any reduction in
competition likely to result from the proposed cooperative agreement shall include, but need not
be limited to, the following factors:

(A) The extent of any likely adverse impact of the proposed cooperative agreement on the
ability of health maintenance organizations, preferred provider organizations, managed health
care organizations or other health care payors to negotiate reasonable payment and service
arrangements with hospitals, physicians, allied health care professionals or other health care
providers;

(B) The extent of any reduction in competition among physicians, allied health
professionals, other health care providers or other persons furnishing goods or services to, or in
competition with, hospitals that is likely to result directly or indirectly from the proposed
cooperative agreement;

(C) The extent of any likely adverse impact on patients in the quality, availability and price
of health care services; and

(D) The availability of arrangements that are less restrictive to competition and achieve
the same benefits or a more favorable balance of benefits over disadvantages attributable to any
reduction in competition likely to result from the proposed cooperative agreement.

(6) (A) After a complete review of the record, including, but not limited to, the factors set
out in subsection (e) of this section, any commitments made by the applicant or applicants and
any conditions imposed by the authority, if the authority determines that the benefits likely to result
from the proposed cooperative agreement outweigh the disadvantages likely to result from a
reduction in competition from the proposed cooperative agreement, the authority shall approve
the proposed cooperative agreement.

(B) The authority may reasonably condition approval upon the parties' commitments to:

(i) Achieving improvements in population health;

(ii) Access to health care services;

(iii) Quality and cost efficiencies identified by the parties in support of their application for
approval of the proposed cooperative agreement; and

(iv) Any additional commitments made by the parties to the cooperative agreement.

Any conditions set by the authority shall be fully enforceable by the authority. No condition
imposed by the authority, however, shall limit or interfere with the right of a hospital to adhere to
religious or ethical directives established by its governing board.

(7) The authority's decision to approve or deny an application shall constitute a final order
or decision pursuant to the West Virginia Administrative Procedure Act (§ 29A-1-1, et seq.). The
authority may enforce commitments and conditions imposed by the authority in the circuit court
of Kanawha County or the circuit court where the principal place of business of a party to the
cooperative agreement is located.

(g) Enforcement and supervision of cooperative agreements. — The authority shall
enforce and supervise any approved cooperative agreement for compliance.

(1) The authority is authorized to promulgate legislative rules in furtherance of this section.
Additionally, the authority shall promulgate emergency rules pursuant to the provisions of section
fifteen, article three, chapter twenty-nine-a of this code to accomplish the goals of this section.
These rules shall include, at a minimum:

(A) An annual report by the parties to a cooperative agreement. This report is required to
include:

(i) Information about the extent of the benefits realized and compliance with other terms
and conditions of the approval;
(ii) A description of the activities conducted pursuant to the cooperative agreement, including any actions taken in furtherance of commitments made by the parties or terms imposed by the authority as a condition for approval of the cooperative agreement;

(iii) Information relating to price, cost, quality, access to care and population health improvement;

(iv) Disclosure of any reimbursement contract between a party to a cooperative agreement approved pursuant to this section and a commercial health plan or insurer entered into subsequent to the finalization of the cooperative agreement. This shall include the amount, if any, by which an increase in the average rate of reimbursement exceeds, with respect to inpatient services for such year, the increase in the Consumer Price Index for all Urban Consumers for hospital inpatient services as published by the Bureau of Labor Statistics for such year and, with respect to outpatient services, the increase in the Consumer Price Index for all Urban Consumers for hospital outpatient services for such year; and

(v) Any additional information required by the authority to ensure compliance with the cooperative agreement.

(B) If an approved application involves the combination of hospitals, disclosure of the performance of each hospital with respect to a representative sample of quality metrics selected annually by the authority from the most recent quality metrics published by the Centers for Medicare and Medicaid Services. The representative sample shall be published by the authority on its website.

(C) A procedure for a corrective action plan where the average performance score of the parties to the cooperative agreement in any calendar year is below the fiftieth percentile for all United States hospitals with respect to the quality metrics as set forth in (B) of this subsection. The corrective action plan is required to:

(i) Be submitted one hundred twenty days from the commencement of the next calendar year; and
(ii) Provide for a rebate to each commercial health plan or insurer with which they have contracted an amount not in excess of one percent of the amount paid to them by such commercial health plan or insurer for hospital services during such two-year period if in any two consecutive-year period the average performance score is below the fiftieth percentile for all United States hospitals. The amount to be rebated shall be reduced by the amount of any reduction in reimbursement which may be imposed by a commercial health plan or insurer under a quality incentive or awards program in which the hospital is a participant.

(D) A procedure where if the excess above the increase in the Consumer Price Index for all Urban Consumers for hospital inpatient services or hospital outpatient services is two percent or greater the authority may order the rebate of the amount which exceeds the respective indices by two percent or more to all health plans or insurers which paid such excess unless the party provides written justification of such increase satisfactory to the authority taking into account case mix index, outliers and extraordinarily high cost outpatient procedure utilizations.

(E) The ability of the authority to investigate, as needed, to ensure compliance with the cooperative agreement.

(F) The ability of the authority to take appropriate action, including revocation of a certificate of approval, if it determines that:

(i) The parties to the agreement are not complying with the terms of the agreement or the terms and conditions of approval;

(ii) The authority’s approval was obtained as a result of an intentional material misrepresentation;

(iii) The parties to the agreement have failed to pay any required fee; or

(iv) The benefits resulting from the approved agreement no longer outweigh the disadvantages attributable to the reduction in competition resulting from the agreement.

(G) If the authority determines the parties to an approved cooperative agreement have engaged in conduct that is contrary to state policy or the public interest, including the failure to
take action required by state policy or the public interest, the authority may initiate a proceeding
to determine whether to require the parties to refrain from taking such action or requiring the
parties to take such action, regardless of whether or not the benefits of the cooperative agreement
continue to outweigh its disadvantages. Any determination by the authority shall be final. The
authority is specifically authorized to enforce its determination in the circuit court of Kanawha
County or the circuit court where the principal place of business of a party to the cooperative
agreement is located.

(H) Fees as set forth in subsection (h).

(2) Until the promulgation of the emergency rules, the authority shall monitor and regulate
cooperative agreements to ensure that their conduct is in the public interest and shall have the
powers set forth in subdivision (1) of this subsection, including the power of enforcement set forth
in paragraph (G), subdivision (1) of this subsection.

(h) Fees. — The authority may set fees for the approval of a cooperative agreement.
These fees shall be for all reasonable and actual costs incurred by the authority in its review and
approval of any cooperative agreement pursuant to this section. These fees shall not exceed
$75,000. Additionally, the authority may assess an annual fee not to exceed $75,000 for the
supervision of any cooperative agreement approved pursuant to this section and to support the
implementation and administration of the provisions of this section.

(i) Miscellaneous provisions. —

(1) (A) An agreement entered into by a hospital party to a cooperative agreement and any
state official or state agency imposing certain restrictions on rate increases shall be enforceable
in accordance with its terms and may be considered by the authority in determining whether to
approve or deny the application. Nothing in this chapter shall undermine the validity of any such
agreement between a hospital party and the Attorney General entered before the effective date
of this legislation.
(B) At least ninety days prior to the implementation of any increase in rates for inpatient and outpatient hospital services and at least sixty days prior to the execution of any reimbursement agreement with a third party payor, a hospital party to a cooperative agreement involving the combination of two or more hospitals through merger, consolidation or acquisition which has been approved by the authority shall submit any proposed increase in rates for inpatient and outpatient hospital services and any such reimbursement agreement to the Office of the West Virginia Attorney General together with such information concerning costs, patient volume, acuity, payor mix and other data as the Attorney General may request. Should the Attorney General determine that the proposed rates may inappropriately exceed competitive rates for comparable services in the hospital's market area which would result in unwarranted consumer harm or impair consumer access to health care, the Attorney General may request the authority to evaluate the proposed rate increase and to provide its recommendations to the Office of the Attorney General. The Attorney General may approve, reject or modify the proposed rate increase and shall communicate his or her decision to the hospital no later than 30 days prior to the proposed implementation date. The hospital may then only implement the increase approved by the Attorney General. Should the Attorney General determine that a reimbursement agreement with a third party payor includes pricing terms at anti-competitive levels, the Attorney General may reject the reimbursement agreement and communicate such rejection to the parties thereto together with the rationale therefor in a timely manner.

(2) The authority shall maintain on file all cooperative agreements the authority has approved, including any conditions imposed by the authority.

(3) Any party to a cooperative agreement that terminates its participation in such cooperative agreement shall file a notice of termination with the authority thirty days after termination.

(4) No hospital which is a party to a cooperative agreement for which approval is required pursuant to this section may knowingly bill or charge for health services resulting from, or
associated with, such cooperative agreement until approved by the authority. Additionally, no hospital which is a party to a cooperative agreement may knowingly bill or charge for health services resulting from, or associated with, such cooperative agreement for which approval has been revoked or terminated.

(5) By submitting an application for review of a cooperative agreement pursuant to this section, the hospitals or health care providers shall be deemed to have agreed to submit to the regulation and supervision of the authority as provided in this section.

§16-29B-30. Applicability; transition plan.

(a) Notwithstanding any provision of this code to the contrary, effective July 1, 2017, the Health Care Authority shall transfer to the Department of Health and Human and Resources. Any and all remaining functions of the Health Care Authority shall transfer at that time to the Department of Health and Human Resources.

(b) The Health Care Authority shall develop and implement a transition plan to transfer all their remaining functions to the Department of Health and Human Resources. The plan shall be submitted in writing to the Joint Committee on Government and Finance, the Governor and the Secretary of the Department of Health and Human Resources, the Secretary of the Department of Administration and the Division of Personnel. ARTICLE 16D. MARKETING AND RATE PRACTICES FOR SMALL EMPLOYER ACCIDENT AND SICKNESS INSURANCE POLICIES.

(a) Upon filing with and approval by the commissioner, any carrier licensed pursuant to this chapter which accesses a health care provider network to deliver services may offer a health benefit plan and rates associated with the plan to a small employer subject to the conditions of this section and subject to the provisions of this article. The health benefit plan is subject to the following conditions:

(1) The health benefit plan may be offered by the carrier only to small employers which have not had a health benefit plan covering their employees for at least six consecutive months before the effective date of this section. After the passage of six months from the effective date of this section, the health benefit plan under this section may be offered by carriers only to small employers which have not had a health benefit plan covering their employees for twelve consecutive months;

(2) If a small employer covered by a health benefit plan offered pursuant to this section no longer meets the definition of a small employer as a result of an increase in eligible employees, that employer shall remain covered by the health benefit plan until the next annual renewal date;
(3) The small employer shall pay at least fifty percent of its employees' premium amount for individual employee coverage;

(4) The commissioner shall promulgate emergency rules under the provisions of article three, chapter twenty-nine-a of this code on or before September 1, 2004, to place additional restrictions upon the eligibility requirements for health benefit plans authorized by this section in order to prevent manipulation of eligibility criteria by small employers and otherwise implement the provisions of this section;

(5) Carriers must offer the health benefit plans issued pursuant to this section through one of their existing networks of health care providers;

(A) The Insurance Commission shall, on or before May 1, 2004, and each year thereafter, by regular mail, provide a written notice to all known in-state health care providers that:

(i) Informs the health care provider regarding the provisions of this section; and

(ii) Notifies the health care provider that if the health care provider does not give written refusal to the Insurance Commission within thirty days from receipt of the notice or the health care provider has not previously filed a written notice of refusal to participate, the health care provider must participate with and accept the products and provider reimbursements authorized pursuant to this section;

(B) The carrier's network of health care providers, as well as any health care provider which provides health care goods or services to beneficiaries of any departments or divisions of the state, as identified in article twenty-nine-d, chapter sixteen of this code, shall accept the health care provider reimbursement rates set pursuant to this section unless the health care provider gives written refusal to the Insurance Commission between May 1 and June 1 that the provider will not participate in this program for the next calendar year. Notwithstanding any provision of this code to the contrary, health care providers may not be mandated to participate in this program except under the opt-out provisions of subdivision (5), subsection (a) of this section and therefore the health care provider shall annually have the ability to file with the Insurance Commission
written notice that the health care provider will not participate with products issued pursuant to this section. Once a health care provider has filed a notice of refusal with the Insurance Commission, the notice shall remain effective until rescinded by the provider and the provider shall not be required to renew the notice each year;

(C) Insurance Commission is responsible for receiving the responses, if any, from the health care providers that have elected not to participate and for providing a list to the commissioner of those health care providers that have elected not to participate;

(D) Those health care providers that do not file a notice of refusal shall be considered to have accepted participation in this program and to accept Public Employees Insurance Agency health care provider reimbursement rates for their services as set by this section;

(E) Health care provider reimbursement rates used by the carrier for a health benefit plan offered pursuant to this section shall have no effect on provider rates for other products offered by the carrier and most-favored-nation clauses do not apply to the rates;

(6) With respect to the health benefit plans authorized by this section, the carrier shall reimburse network health care providers at the same health care provider reimbursement rates in effect for the managed care and health maintenance organization plans offered by the West Virginia Public Employees Insurance Agency. Beginning in the year 2004, and in each year thereafter, the health care provider reimbursement rates set under this section may not be lowered from the level of the rates in effect on July 1 of that year for the managed care and health maintenance plans offered by the Public Employees Insurance Agency. While it is the intent of this paragraph to govern rates for plans offered pursuant to this section for annual periods, this subdivision in no way prevents the Public Employees Insurance Agency from making provider reimbursement rate adjustments to Public Employees Insurance Agency plans during the course of each year. If there is a dispute regarding the determination of appropriate rates pursuant to this section, the Director of the Public Employees Insurance Agency shall, in his or her sole discretion, specify the appropriate rate to be applied;
(A) The health care provider reimbursement rates as authorized by this section shall be accepted by the health care provider as payment in full for services or products provided to a person covered by a product authorized by this section;

(B) Except for the health care provider rates authorized under this section, a carrier’s payment methodology, including copayments and deductibles and other conditions of coverage, remains unaffected by this section;

(C) The provisions of this section do not require the Public Employees Insurance Agency to give carriers access to the purchasing networks of the Public Employees Insurance Agency. The Public Employees Insurance Agency may enter into agreements with carriers offering health benefit plans under this section to permit the carrier, at its election, to participate in drug purchasing arrangements pursuant to article sixteen-c, chapter five of this code, including the multistate drug purchasing program. This paragraph provides authorization of the agreements pursuant to section four of said article;

(7) Carriers may not underwrite products authorized by this section more strictly than other small group policies governed by this article;

(8) With respect to health benefit plans authorized by this section, a carrier shall have a minimum anticipated loss ratio of seventy-seven percent to be eligible to make a rate increase request after the first year of providing a health benefit plan under this section;

(9) Products authorized under this section are exempt from the premium taxes assessed under sections fourteen and fourteen-a, article three of this chapter;

(10) A carrier may elect to nonrenew any health benefit plan to an eligible employer if, at any time, the carrier determines, by applying the same network criteria which it applies to other small employer health benefit plans, that it no longer has an adequate network of health care providers accessible for that eligible small employer. If the carrier makes a determination that an adequate network does not exist, the carrier has no obligation to obtain additional health care providers to establish an adequate network;
(11) Upon thirty days’ advance notice to the commissioner, a carrier may, at any time, elect to nonrenew all health benefit plans issued pursuant to this section. If a carrier nonrenews all its business issued pursuant to this section for any reason other than the adequacy of the provider network, the carrier may not offer this health benefit plan to any eligible small employer for a period of at least two years after the last eligible small employer is nonrenewed; and

(12) The Insurance Commissioner may not approve any health benefit plan issued pursuant to this section until it has obtained any necessary federal governmental authorizations or waivers. The Insurance Commissioner shall apply for and obtain all necessary federal authorizations or waivers.

(b) Health benefit plans authorized by this section are not intended to violate the prohibition set out in subsection (a), section four of this article.

(c) Carriers offering health benefit plans pursuant to this section shall annually or before December 1 of each year report in a form acceptable to the commissioner the number of health benefit plans written by the carrier and the number of individuals covered under the health benefit plans.

(d) To the extent that provisions of this section differ from those contained elsewhere in this chapter, the provisions of this section control.
