CHAPTER 16. PUBLIC HEALTH.

§16-5-19. Death registration.

1 (a) A certificate of death for each death which occurs in this state shall be filed with the
2 section of vital statistics, or as otherwise directed by the State Registrar, within five days after
3 death and prior to final disposition, and shall be registered if it has been completed and filed in
4 accordance with this section.

5 (1) If the place of death is unknown, but the dead body is found in this state, the place
6 where the body was found shall be shown as the place of death.

7 (2) If the date of death is unknown it shall be approximated. If the date cannot be
8 approximated, the date found shall be shown as the date of death.

9 (3) If death occurs in a moving conveyance in the United States and the body is first
10 removed from the conveyance in this state, the death shall be registered in this state and the
11 place where it is first removed shall be considered the place of death.

12 (4) If death occurs in a moving conveyance while in international waters or air space or in
13 a foreign country or its air space and the body is first removed from the conveyance in this state,
14 the death shall be registered in this state but the certificate shall show the actual place of death
15 insofar as can be determined.

16 (5) In all other cases, the place where death is pronounced shall be considered the place
17 where death occurred.

18 (b) The funeral director or other person who assumes custody of the dead body shall:

19 (1) Obtain the personal data from the next of kin or the best qualified person or source
20 available including the deceased person's social security number or numbers, which shall be
21 placed in the records relating to the death and recorded on the certificate of death;

22 (2) Within forty-eight hours after death, provide the certificate of death containing sufficient
23 information to identify the decedent to the physician nurse responsible for completing the medical
24 certification as provided in subsection (c) of this section; and

25 (3) Upon receipt of the medical certification, file the certificate of death: *Provided*, That for
26 implementation of electronic filing of death certificates, the person who certifies to cause of death
27 will be responsible for filing the electronic certification of cause of death as directed by the State
28 Registrar and in accordance with legislative rule.

29 (c) The medical certification shall be completed and signed within twenty-four hours after
30 receipt of the certificate of death by the physician, a physician assistant or advanced practice

31 registered nurse in charge of the patient's care for the illness or condition which resulted in death
32 except when inquiry is required pursuant to article twelve, chapter sixty-one or other applicable
33 provisions of this code.

34 (1) In the absence of the physician, a physician assistant or advanced practice registered
35 nurse or with his or her approval, the certificate may be completed by his or her associate
36 physician, any physician who has been placed in a position of responsibility for any medical
37 coverage of the decedent, the chief medical officer of the institution in which death occurred or
38 the physician who performed an autopsy upon the decedent, provided inquiry is not required
39 pursuant to article twelve, chapter sixty-one, of this code.

40 (2) The person completing the cause of death shall attest to its accuracy either by
41 signature or by an approved electronic process.

42 (d) When inquiry is required pursuant to article twelve, chapter sixty-one, or other
43 applicable provisions of this code, the state Medical Examiner or designee or county medical
44 examiner or county coroner in the jurisdiction where the death occurred or where the body was
45 found shall determine the cause of death and shall complete the medical certification within forty-
46 eight hours after taking charge of the case.

47 (1) If the cause of death cannot be determined within forty-eight hours after taking charge
48 of the case, the medical examiner shall complete the medical certification with a "Pending" cause
49 of death to be amended upon completion of medical investigation.

50 (2) After investigation of a report of death for which inquiry is required, if the state Medical
51 Examiner or designee or county medical examiner or county coroner decline jurisdiction, the state
52 Medical Examiner or designee or county medical examiner or county coroner may direct the
53 decedent's family physician or the physician who pronounces death to complete the certification
54 of death: *Provided*, That the physician is not civilly liable for inaccuracy or other incorrect
55 statement of death unless the physician willfully and knowingly provides information he or she
56 knows to be false.

57 (e) When death occurs in an institution and the person responsible for the completion of
58 the medical certification is not available to pronounce death, another physician may pronounce
59 death. If there is no physician available to pronounce death, then a designated licensed health
60 professional who views the body may pronounce death, attest to the pronouncement by signature
61 or an approved electronic process and, with the permission of the person responsible for the
62 medical certification, release the body to the funeral director or other person for final disposition:
63 *Provided*, That if the death occurs in an institution during court-ordered hospitalization, in a
64 correctional facility or under custody of law-enforcement authorities, the death shall be reported
65 directly to a medical examiner or coroner for investigation, pronouncement and certification.

66 (f) If the cause of death cannot be determined within the time prescribed, the medical
67 certification shall be completed as provided by legislative rule. The attending physician or medical
68 examiner, upon request, shall give the funeral director or other person assuming custody of the
69 body notice of the reason for the delay, and final disposition of the body may not be made until
70 authorized by the attending physician, medical examiner or other persons authorized by this
71 article to certify the cause of death.

72 (g) Upon receipt of autopsy results, additional scientific study, or where further inquiry or
73 investigation provides additional information that would change the information on the certificate
74 of death from that originally reported, the certifier, or any state medical examiner who provides
75 such inquiry under authority of article twelve, chapter sixty-one of this code shall immediately file
76 a supplemental report of cause of death or other information with the section of vital statistics to
77 amend the record, but only for purposes of accuracy.

78 (h) When death is presumed to have occurred within this state but the body cannot be
79 located, a certificate of death may be prepared by the State Registrar only upon receipt of an
80 order of a court of competent jurisdiction which shall include the finding of facts required to
81 complete the certificate of death. The certificate of death will be marked "Presumptive" and will

82 show on its face the date of death as determined by the court and the date of registration, and
83 shall identify the court and the date of the order.

84 (i) The local registrar shall transmit each month to the county clerk of his or her county a
85 copy of the certificates of all deaths occurring in the county, and if any person dies in a county
86 other than the county within the state in which the person last resided prior to death, then the
87 State Registrar shall furnish a copy of the death certificate to the clerk of the county commission
88 of the county where the person last resided, from which copies the clerk shall compile a register
89 of deaths, in a form prescribed by the State Registrar. The register shall be a public record.

1 The West Virginia Board of Medicine has assumed, carried on and succeeded to all the
2 duties, rights, powers, obligations and liabilities heretofore belonging to, or exercised by, the
3 Medical Licensing Board of West Virginia. All the rules, orders, rulings, licenses, certificates,
4 permits and other acts and undertakings of the Medical Licensing Board of West Virginia as
5 heretofore constituted have continued as those of the West Virginia Board of Medicine until they
6 expired or were amended, altered or revoked. The board remains the sole authority for the
7 issuance of licenses to practice medicine and surgery and to practice podiatry and to practice as
8 physician assistants in this state under the supervision of physicians licensed under this article.
9 The board shall continue to be a regulatory and disciplinary body for the practice of medicine and
10 surgery and the practice of podiatry and for physician assistants in this state.

11 The board shall consist of sixteen members. One member shall be the state health officer
12 ex officio, with the right to vote as a member of the board. The other fifteen members shall be
13 appointed by the Governor, with the advice and consent of the Senate. Eight of the members

14 shall be appointed from among individuals holding the degree of doctor of medicine and two shall
15 hold the degree of doctor of podiatric medicine. Two members shall be licensed by the board as
16 physician assistants. Each of these members must be duly licensed to practice his or her
17 profession in this state on the date of appointment and must have been licensed and actively
18 practicing that profession for at least five years immediately preceding the date of appointment.
19 Three lay members shall be appointed to represent health care consumers. Neither the lay
20 members nor any person of the lay members' immediate families shall be a provider of, or be
21 employed by a provider of, health care services. The state health officer's term shall continue for
22 the period that he or she holds office as state health officer. Each other member of the board shall
23 be appointed to serve a term of five years: *Provided*, That the members of the Board of Medicine
24 holding appointments on the effective date of this section shall continue to serve as members of
25 the Board of Medicine until the expiration of their term unless sooner removed. Each term shall
26 begin on October 1 of the applicable year and a member may not be appointed to more than two
27 consecutive full terms on the board.

28 A person is not eligible for membership on the board who is a member of any political
29 party executive committee or, with the exception of the state health officer, who holds any public
30 office or public employment under the federal government or under the government of this state
31 or any political subdivision thereof.

32 In making appointments to the board, the Governor shall, so far as practicable, select the
33 members from different geographical sections of the state. When a vacancy on the board occurs
34 and less than one year remains in the unexpired term, the appointee shall be eligible to serve the
35 remainder of the unexpired term and two consecutive full terms on the board.

36 No member may be removed from office by the Governor except for official misconduct,
37 incompetence, neglect of duty or gross immorality: *Provided*, That the expiration, surrender or
38 revocation of the professional license by the board of a member of the board shall cause the
39 membership to immediately and automatically terminate.

15 a thirty-day supply without refill. In addition to the above referenced provisions and restrictions
16 and pursuant to a practice agreement as set forth in this article, the rules shall permit the
17 prescribing of an annual supply of any drug, with the exception of controlled substances, which is
18 prescribed for the treatment of a chronic condition, other than chronic pain management. For the
19 purposes of this section, a chronic condition is a condition which lasts three months or more,

§30-3E-4. License to practice as a physician assistant.

1 (a) A person seeking licensure as a physician assistant shall apply to the Board of

2 licensing board, by submitting:

4 physician assistant shall:

5 (1) File a practice agreement with the appropriate licensing board, including any
6 designated alternate collaborating physicians;

7 (2) Pay the applicable fees; and

8 (3) Receive written authorization from the appropriate licensing board to commence
9 practicing as a physician assistant pursuant to the practice agreement.

10 (c) A physician applying to collaborate with a physician assistant shall affirm that:

11 (1) The medical services set forth in the practice agreement are consistent with the skills
12 and training of the collaborating physician and the physician assistant; and

13 (2) The activities delegated to a physician assistant are consistent with sound medical
14 practice and will protect the health and safety of the patient.

15 (d) A collaborating physician may enter into practice agreements with up to five full-time
16 physician assistants at any one time. A physician is prohibited from being a collaborating or
17 alternate collaborating physician to more than five physician assistants at any one time. However,
18 a physician practicing medicine in an emergency department of a hospital or a physician who
19 collaborates with a physician assistant who is employed by or on behalf of a hospital may provide
20 collaboration for up to five physician assistants per shift if the physician has an authorized practice

8 (4) A description of the medical acts that are to be delegated;

9 (5) An attestation by the collaborating physician that the medical acts to be delegated are:

10 (A) Within the collaborating physician's scope of practice; and

11 (B) Appropriate to the physician assistant's education, training and level of competence;

12 (6) A description of the medical care the physician assistant will provide in an emergency,
13 including a definition of an emergency;

14 (7) A description of the limitation of the ability of the physician assistant to prescribe as set
15 forth in paragraph (A), subdivision (7), subsection (a), section three of this article; and

16 (8) Any other information required by the boards.

17 (b) A licensing board may:

18 (1) Decline to authorize a physician assistant to commence practicing pursuant to a

22 (2) Request additional information from the collaborating physician and/or the physician
23 assistant to evaluate the delegation of duties and advanced duties.

24 (c) A licensing board may authorize a practice agreement that includes advanced duties
25 which are to be performed in a hospital or ambulatory surgical facility, if the practice agreement
26 has a certification that:

28 surgical facility as a condition of employment as an independent contractor or as a member of the
29 medical staff, collaborates with the physician assistant;

30 (2) The physician assistant has credentials that have been reviewed by the hospital or
31 ambulatory surgical facility as a condition of employment as an independent contractor or as a
32 member of the medical staff; and

34 approved within a process approved by the governing body of the health care facility or
35 ambulatory surgical facility before the physician assistant performs the advanced duties.

36 (d) If a licensing board declines to authorize a practice agreement or any proposed
37 delegated act incorporated therein, the board shall provide the collaborating physician and the
38 physician assistant with written notice. A physician assistant who receives notice that the board
39 has not authorized a practice agreement or a delegated act shall not practice under the agreement
40 or perform the delegated act.

41 (e) If a practice agreement is terminated, then a physician assistant shall notify the
42 appropriate licensing board in writing within ten days of the termination. Failure to provide timely
43 notice of the termination constitutes unprofessional conduct and disciplinary proceedings may be
44 instituted by the appropriate licensing board.

§30-3E-11. Collaboration with physician assistants.

1 (a) A licensed physician or podiatrist may supervise a physician assistant:

2 (1) As a collaborating physician in accordance with an authorized practice agreement; or

18 physician assistant when the physician assistant is employed by or on behalf of the facility.
19 Credentialed medical facility staff and attending physicians of a hospital who provide direction to
20 or utilize physician assistants employed by or on behalf of the hospital are considered alternate
21 collaborating physicians.

§30-3E-12. Scope of practice.

1 (a) A license issued to a physician assistant by the appropriate state licensing board shall
2 authorize the physician assistant to perform medical acts:

- 5 (3) Customary to the practice of the collaborating physician; and
- 6 (4) Consistent with the laws of this state and rules of the boards.

7 (b) This article does not authorize a physician assistant to perform any specific function or
8 duty delegated by this code to those persons licensed as chiropractors, dentists, dental
9 hygienists, optometrists or pharmacists, or certified as nurse anesthetists.

§30-3E-12a. Physician assistant signatory authority.

1 (a) A physician assistant may provide an authorized signature, certification, stamp,
