2 pressure per square inch (except boilers on railroad locomotives subject to inspection under
3 federal laws; portable boilers used for agricultural purposes; boilers on automobiles; boilers of
4 steam fire engines brought into the state for temporary use in times of emergency for the purpose
5 of checking conflagrations; boilers used in private residences which are used solely for residential
6 purposes; any sectional boilers; small portable boilers commonly used in the oil and gas industry
7 about their wells and tool houses; and boilers under the jurisdiction of the United States) in this
8 state shall first obtain a permit to operate a steam boiler from the Commissioner of Labor, or from
9 an inspector working under his or her jurisdiction.

10 (b) Applications for permits to operate a steam boiler must be accompanied by a sworn
11 statement made by the owner or operator of such boiler, setting forth the condition of the boiler
12 and its appurtenances at which time, if the facts disclosed by such statement meet the safety
13 requirements established under this article, the Commissioner of Labor shall issue a temporary
14 permit, which shall be valid until such boiler has been inspected by a boiler inspector authorized
