The amount of this rebate shall be determined and applied as hereinafter provided in this article.

(b) Amount of rebate—The amount of rebate allowable is determined by multiplying the amount of the taxpayer’s capital investment in new machinery, equipment, or improvements to real property directly used in the production of coal at a coal mining operation in this state by 35 percent. The product of this computation establishes the maximum amount of rebate allowable under this article for the capital investment in new machinery, equipment, or improvements to real property.

(c) Application of rebate amount—The amount of rebate allowable is determined by applying the rebate amount determined in subsection (b) of this section against 80 percent of the state portion of the severance tax paid on the privilege of severing, extracting, reducing to possession, and producing coal for sale, profit, or commercial use that is directly attributable to the increased production of coal at the mine due to taxpayer’s capital investment in new machinery, equipment, or improvements to real property at the mine or coal processing and preparation plant.
(d) The amount of severance tax attributable to the increase in coal production at a mine due to the capital investment in new machinery, equipment, or improvements to real property shall be determined by comparing (1) the state portion of the severance tax due under §11-13A-3 of this code on coal produced from the mine during calendar year 2018, or if the taxpayer has produced coal for five years at the mine at which its capital investment in new machinery, equipment, or improvements to real property are placed in service or use the average of the state portion of the severance tax due under §11-13A-3 of this code on coal produced from the mine during the five year period ending on December 31, 2018, whichever is less, before allowance of any tax credits, except as provided in subsection (e) of §11-13EE-3 of this code (2) with the state severance tax due on coal produced at the mine during the then current calendar year in which the rebate amount is claimed, before allowance for any tax credits. When the amount in (2) of this section is greater than the amount in (1) of this section, the difference is the amount of state severance tax due to the increase in coal production at the mine that is attributable to the capital investment in new machinery, equipment, or improvements to real property: Provided, That when the producer of the coal operates more than one mine in this state, or is a member of a controlled or affiliated group that operates one or more coal mines in this state, no credit shall be allowed unless the total coal production from all mines operated by the taxpayer or by members of the affiliated or controlled group in this state has increased: Provided, however, That in no case shall the severance tax attributable to any mine other than the specific mine at which capital investment in new machinery, equipment, or improvements to real property is directly used in a coal mining operation has been placed in service or use be offset by this rebate.

(e) When the eligible taxpayer is a new business that has produced coal in this state for two years before making the capital investment in new machinery, equipment, or improvements to real property then, for purposes of subdivision (1) in subsection (d) of this section, the base shall be the average amount of state severance tax due under §11-13A-3 of this code on coal produced in this state during this two-year period.
(f) No rebate shall be allowed under this article when credit is claimed under any other article of this chapter for capital investment in the new machinery, equipment, or improvements to real property. No credit shall be allowed under any other article of this chapter when rebate is allowed under this article for the capital investment in new machinery, equipment, or improvements to real property.

§11-13EE-4. Information required to determine amount of rebate allowable.

(a) A taxpayer claiming rebate under this article who operates more than one coal mine in this state shall provide a schedule with the annual severance tax return filed under §11-13A-1 et seq. of this code that shows, for each coal mine, the number of tons of coal produced and the gross value of the coal produced at each mine during the taxable year.

(b) When a taxpayer claiming rebate under this article is a member of an affiliated or controlled group, as the case may be, that operates more than one coal mine in this state the group shall provide a schedule with its annual severance tax return filed under §11-13A-1 et seq. of this code for the taxable year that shows for each coal mine operated in this state by the affiliated or controlled group, as the case may be, the number of tons of coal produced at each mine and the gross value of the coal produced at each mine during the taxable year.

(a) After the severance taxes due for the taxable year are paid, a taxpayer may file a claim under this article for rebate of up to 80 percent of the state portion of the additional severance taxes paid under §11-13A-3 of this code that are directly attributable to the taxpayer's capital investment in new machinery, equipment, or improvements on real property placed in service or use during that taxable year as set forth in §11-13EE-3 of this code.

(b) When the amount of rebate claimed exceeds 80 percent of the additional state severance tax paid as provided in subsection (a) of this section, the unused portion of the rebate amount may be carried forward and rebated by the Tax Commissioner after severance taxes due in subsequent years are paid: Provided, That the carryforward period may not exceed 10 years
from the date the capital investment in new machinery, equipment, or improvements to real
property is placed in service or use in this state.

§11-13EE-6. Suspension of payment of rebate.

(a) No rebate may be paid under this article when the taxpayer, or any member of the
taxpayer’s combined or affiliated group, as the case may be, is delinquent in the payment of
severance taxes imposed pursuant to §11-13A-3 of this code and any local, state, or federal tax
or fee until such time as the delinquency is cured.

(b) For purposes of this section, a taxpayer is not delinquent if the taxpayer is contesting
an assessment in the Office of Tax Appeals or in any court of this state or of the appropriate
federal agency or court, or is complying with the terms of any payment plan agreement.

(c) In the case of a taxpayer that files a combined tax return as a member of a unitary
group, no rebate under this article that is earned by one member of the combined group, but not
fully used by or allowed to that member, may be claimed, in whole or in part, by another member
of the group.

§11-13EE-7. Burden of proof; application required; failure to make timely application.

(a) Burden of proof—The burden of proof is on the taxpayer to establish by clear and
convincing evidence that the taxpayer is entitled to the benefits allowed by this article.

(b) Application for rebate required—

(1) Notwithstanding any provision of this article to the contrary, no rebate shall be paid
under this article for any capital investment in new machinery, equipment, or improvements to
real property placed in service or use until the person asserting a claim for the allowance of rebate
under this article makes written application to the Tax Commissioner for allowance of rebate as
provided in this section.

(2) An application for rebate shall be filed, in the form prescribed by the Tax Commissioner,
no later than the last day for filing the severance tax return, determined by including any
authorized extension of time for filing the return, for the taxable year in which the machinery,
equipment, or improvements to which the rebate relates is placed in service or use and all
information required by the form is provided.

(3) A separate application for rebate is required for each taxable year during which the
taxpayer places new machinery, equipment, or improvements in service or use in a mine or coal
preparation and processing facility in this state.

(c) Failure to make timely application. — The failure to timely apply for the rebate results
in the forfeiture of 25 percent of the rebate amount otherwise allowable under this article. This
penalty applies annually until the application is filed.

property is subject to the following rules:

(1) A taxpayer is treated as having disposed of, during the taxable year, any machinery,
equipment or improvements to real property that the taxpayer cannot establish was still on hand,
in this state, at the end of that year.

(2) If a taxpayer cannot establish when capital investment in new machinery, equipment,
or improvements to real property was reported for purposes of claiming this credit during the
taxable year, or the machinery, equipment, or improvements to real property were placed in
service or use, the taxpayer is treated as having placed it in service or use in the most recent prior
taxable year in which similar machinery, equipment, or improvements to real property were placed
in service or use, unless the taxpayer can establish that the machinery, equipment, or
improvements to real property were placed in service or use in the most recent taxable year is
still on hand. In that event, the taxpayer will be treated as having placed the returned machinery,
equipment, or improvements to real property in service or use in the next most recent taxable
year.

(a) Mere change in form of business—Machinery, equipment, or improvements to real

successor business is allowed to claim the rebate amount of credit still available with respect to
the machinery and equipment transferred, and the transferor business may not be required to

improvements to real property were first placed in service or use. Upon transfer or sale, the
successor shall acquire the amount of rebate, if any, that remains available under this article, and
the transferor business is not required to redetermine the amount of rebate allowed in earlier
years.

§11-13EE-11. Recapture of rebate; recapture tax imposed.
