(d) All of the insurance coverage to be provided for under this article may be included in one or more similar contracts issued by the same or different carriers.

(e) The provisions of §5A-3-1 et seq. of this code, relating to the Division of Purchasing of the Department of Finance and Administration, shall not apply to any contracts for any insurance coverage or professional services authorized to be executed under the provisions of this article. Before entering into any contract for any insurance coverage, as authorized in this article, the director shall invite competent bids from all qualified and licensed insurance companies or
carriers, who may wish to offer plans for the insurance coverage desired: Provided, That the
director shall negotiate and contract directly with health care providers and other entities,
organizations and vendors in order to secure competitive premiums, prices, and other financial
advantages. The director shall deal directly with insurers or health care providers and other
entities, organizations, and vendors in presenting specifications and receiving quotations for bid
purposes. No commission or finder’s fee, or any combination thereof, shall be paid to any
individual or agent; but this shall not preclude an underwriting insurance company or companies,
at their own expense, from appointing a licensed resident agent, within this state, to service the
companies’ contracts awarded under the provisions of this article. Commissions reasonably
related to actual service rendered for the agent or agents may be paid by the underwriting
company or companies: Provided, however, That in no event shall payment be made to any agent
or agents when no actual services are rendered or performed. The director shall award the
contract or contracts on a competitive basis. In awarding the contract or contracts the director
shall take into account the experience of the offering agency, corporation, insurance company, or
service organization in the group hospital and surgical insurance field, group major medical
insurance field, group prescription drug field, and group life and accidental death insurance field,
and its facilities for the handling of claims. In evaluating these factors, the director may employ
the services of impartial, professional insurance analysts or actuaries, or both. Any contract
executed by the director with a selected carrier shall be a contract to govern all eligible employees
subject to the provisions of this article. Nothing contained in this article shall prohibit any insurance
carrier from soliciting employees covered hereunder to purchase additional hospital and surgical,
major medical, or life and accidental death insurance coverage.

(f) The director may authorize the carrier with whom a primary contract is executed to
reinsure portions of the contract with other carriers which elect to be a reinsurer and who are
legally qualified to enter into a reinsurance agreement under the laws of this state.
(g) Each employee who is covered under any contract or contracts shall receive a statement of benefits to which the employee, his or her spouse and his or her dependents are entitled under the contract, setting forth the information as to whom the benefits are payable, to whom claims shall be submitted and a summary of the provisions of the contract or contracts as they affect the employee, his or her spouse and his or her dependents.

(h) The director may at the end of any contract period discontinue any contract or contracts it has executed with any carrier and replace the same with a contract or contracts with any other carrier or carriers meeting the requirements of this article.

(i) The director shall provide by contract or contracts entered into under the provisions of this article the cost for coverage of children’s immunization services from birth through age 16 years to provide immunization against the following illnesses: Diphtheria, polio, mumps, measles, rubella, tetanus, hepatitis-b, hemophilia influenzae-b, and whooping cough. Additional immunizations may be required by the Commissioner of the Bureau for Public Health for public health purposes. Any contract entered into to cover these services shall require that all costs associated with immunization, including the cost of the vaccine, if incurred by the health care provider, and all costs of vaccine administration be exempt from any deductible, per visit charge and/or copayment provisions which may be in force in these policies or contracts. This section does not require that other health care services provided at the time of immunization be exempt from any deductible and/or copayment provisions.

(j) The director shall include language in all contracts for pharmacy benefits management, as defined by §33-51-3 of this code, requiring the pharmacy benefit manager to report quarterly to the agency for all pharmacy claims the amount paid to the pharmacy provider per claim, including, but not limited to, the following:

(1) The cost of drug reimbursement;

(2) Dispensing fees;

(3) Copayments; and
(4) The amount charged to the agency for each claim by the pharmacy benefit manager. In the event there is a difference between these amounts for any claim, the pharmacy benefit manager shall report an itemization of all administrative fees, rebates, or processing charges associated with the claim. All data and information provided by the pharmacy benefit manager shall be kept secure, and notwithstanding any other provision of this code to the contrary, the agency shall maintain the confidentiality of the proprietary information and not share or disclose the proprietary information contained in the report or data collected with persons outside the agency. All data and information provided by the pharmacy benefit manager shall be considered proprietary and confidential and exempt from disclosure under the West Virginia Freedom of Information Act pursuant to §29B-1-4(a)(1) of this code. Only those agency employees involved in collecting, securing, and analyzing the data for the purpose of preparing the report provided for herein shall have access to the proprietary data. The director shall, using aggregated, non-proprietary data only, report at least quarterly to the Joint Committee on Government and Finance on the implementation of this subsection and its impact on program expenditures, including any difference or spread between the amount paid by pharmacy benefit managers to the pharmacy providers and the amount charged to the agency for each claim by the pharmacy benefit manager.

(k) If the information required herein is not provided, the agency may terminate the contract with the pharmacy benefit manager and the Office of the Insurance Commissioner shall discipline the pharmacy benefit manager as provided in §33-51-8(e) of this code.
