[Passed March 9, 2019; in effect 90 days from passage]
AN ACT to amend and reenact §5-16B-6d of the Code of West Virginia, 1931, as amended; and to amend and reenact §9-5-12 of said code, all relating to expanding certain insurance coverages for pregnant women; expanding who is eligible to receive certain Medicaid services; expanding who is eligible to receive certain services through the Children’s Health Insurance Program; providing the minimum services are to be covered; and providing an effective date.

Be it enacted by the Legislature of West Virginia:

CHAPTER 5. GENERAL POWERS AND AUTHORITY OF THE GOVERNOR, SECRETARY OF STATE, AND ATTORNEY GENERAL; BOARD OF PUBLIC WORKS; MISCELLANEOUS AGENCIES, COMMISSIONS, OFFICES, PROGRAMS, ETC.

ARTICLE 16B. WEST VIRGINIA CHILDREN’S HEALTH INSURANCE PROGRAM.

§5-16B-6d. Modified benefit plan implementation.

(a) Upon approval by the Centers for Medicare and Medicaid Services, the board shall implement a benefit plan for uninsured children of families with income between 200 and 300 hundred percent of the federal poverty level.

(b) The benefit plans offered pursuant to this section shall include services determined to be appropriate for children, but may vary from those currently offered by the board.

(c) The board shall structure the benefit plans for this expansion to include premiums, coinsurance or copays, and deductibles. The board shall develop the cost-sharing features in such a manner as to keep the program fiscally stable without creating a barrier to enrollment. Such features may include different cost-sharing features within this group based upon the percentage of the federal poverty level.

(d) Provider reimbursement schedules shall be no lower than the reimbursement provided for the same services under the plans offered in §5-16-1 et seq. of this code.
(e) The board shall create a benefit plan for comprehensive coverage for pregnant women between 185 percent and 300 percent of the federal poverty level including prenatal care, delivery, and 60 days postpartum care under authorization of the Title XXI of the Social Security Act of 1997, 42 U.S.C. § 1397ll, and as funding is available after all children up to 300 percent of the federal poverty level are covered.

(f) All provisions of this article are applicable to this expansion unless expressly addressed in this section.

(g) Nothing in this section may be construed to require any appropriation of state General Revenue Funds for the payment of any benefit provided pursuant to this section, except for the state appropriation used to match the federal financial participation funds. In the event that federal funds are no longer authorized for participation by individuals eligible at income levels above 200 percent, the board shall take immediate steps to terminate the expansion provided for in this section and notify all enrollees of such termination. In the event federal appropriations decrease for the programs created pursuant to Title XXI of the Social Security Act of 1997, the board is directed to make those decreases in this expansion program before making changes to the programs created for those children whose family income is less than 200 percent of the federal poverty level.

(h) The board is directed to report no less than quarterly to the Legislative Oversight Commission on Health and Human Resources Accountability on the development, implementation, and progress of the expansion authorized in this section.

CHAPTER 9. HUMAN SERVICES.

ARTICLE 5. MISCELLANEOUS PROVISIONS.

§9-5-12. Medicaid program; maternity and infant care.

(a) The Legislature finds that high rates of infant mortality and morbidity are costly to the state in terms of human suffering and of expenditures for long-term institutionalization, special education, and medical care. It is well documented that appropriate care during pregnancy and ...
delivery can prevent many of the expensive, disabling problems our children experience. There exists a crisis in this state relating to the availability of obstetrical services, particularly to patients in rural areas, and to the cost patients must pay for obstetrical services. The availability of obstetrical service for Medicaid patients enables these patients to receive quality medical care and to give birth to healthier babies and, consequently, improve the health status of the next generation.

The Legislature further recognizes that public and private insurance mechanisms remain inadequate, and poor and middle income women and children are among the most likely to be without insurance. Generally, low-income, uninsured children receive half as much health care as their insured counterparts. The state is now investing millions to care for sick infants whose deaths and disabilities could have been avoided.

It is the intent of the Legislature that the Department of Health and Human Resources participate in the Medicaid program for indigent children and pregnant women established by Congress under the Consolidated Omnibus Budget Reconciliation Act (COBRA), Public Law 99-272, the Sixth Omnibus Budget Reconciliation Act (SOBRA), Public Law 99-504, and the Omnibus Budget Reconciliation Act (OBRA), Public Law 100-203.

(b) The department shall:

(1) Extend Medicaid coverage to pregnant women and their newborn infants to 185 percent of the federal poverty level and to provide coverage up to 60 days postpartum care, effective July 1, 2019, or as soon as federal approval has occurred.

(2) As provided under COBRA, SOBRA, and OBRA, effective July 1, 1988, infants shall be included under Medicaid coverage with all children eligible for Medicaid coverage born on or after October 1, 1983, whose family incomes are at or below 100 percent of the federal poverty level and continuing until such children reach the age of eight years.

(3) Elect the federal options provided under COBRA, SOBRA, and OBRA impacting pregnant women and children below the poverty level: Provided, That no provision in this article
shall restrict the department in exercising new options provided by or to be in compliance with
new federal legislation that further expands eligibility for children and pregnant women.

(4) The department shall be responsible for the implementation and program design for a
maternal and infant health care system to reduce infant mortality in West Virginia. The health
system design shall include quality assurance measures, case management, and patient
outreach activities. The department shall assume responsibility for claims processing in
accordance with established fee schedules and financial aspects of the program necessary to
receive available federal dollars and to meet federal rules and regulations.

(5) Beginning July 1, 1988, the department shall increase to no less than $600 the
reimbursement rates under the Medicaid program for prenatal care, delivery, and post-partum
care.

(c) In order to be in compliance with the provisions of OBRA through rules and regulations,
the department shall ensure that pregnant women and children whose incomes are above the Aid
to Families and Dependent Children (AFDC) payment level are not required to apply for
entitlements under the AFDC program as a condition of eligibility for Medicaid coverage. Further,
the department shall develop a short, simplified pregnancy/pediatric application of no more than
three pages, paralleling the simplified OBRA standards.

(d) Any woman who establishes eligibility under this section shall continue to be treated
as an eligible individual without regard to any change in income of the family of which she is a
member until the end of the 60-day period beginning on the last day of her pregnancy.

(e) No later than July 1, 2016, the department shall seek a waiver of the requirements that
all women seek 30-day approval from the federal Center for Medicare and Medicaid Services
prior to receiving a tubal ligation.
The Joint Committee on Enrolled Bills hereby certifies that the foregoing bill is correctly enrolled.
