[Passed March 7, 2019; in effect from passage]

OFFICE WEST VIRGINIA
SECRETARY OF STATE

2019 MAR 27 P 5:14

F I L L E D

1 AN ACT to amend and reenact §17-2A-11 of the Code of West Virginia, 1931, as amended,
2 relating to digital road maps; and requiring digital road maps to be capable of displaying
3 or indicating roads or highways types using specified classifications.

Be it enacted by the Legislature of West Virginia:

ARTICLE 2A. WEST VIRGINIA COMMISSIONER OF HIGHWAYS.

§17-2A-11. Road maps; digital road map.

1 (a) The commissioner shall prepare and currently maintain a master road and highway
2 map which will show all of the state roads and highways located, created, and classified as
3 provided by law; the mileage of roads and highways; the status of improvements; and travel
4 conditions when practical. The commissioner may make economical reproductions of the map for
5 official use and public information purposes, including a digital road map. The goal is for the maps
6 to be computerized and searchable by the public to map routes for travel throughout the state.

7 (b) In addition to any other representations deemed useful by the commissioner, the digital
8 road map shall be capable of displaying or indicating the type of roads or highways using the
9 following classifications: (1) Primitive or unimproved roads; (2) graded, drained, soil-, gravel-, or
10 stone-surfaced roads; (3) paved, but unpainted roads; (4) roads with a center line or more than
11 two lanes; and (5) interstate highways. The digital road map shall further indicate the types of
12 vehicles that may use each road, including full-size vehicles and off-highway vehicles, such as
13 all-terrain vehicles, utility-terrain vehicles, motorcycles, and off-road vehicles.

The Joint Committee on Enrolled Bills hereby certifies that the foregoing bill is correctly enrolled.
