ARTICLE 53. REQUIRED COVERAGE FOR HEALTH INSURANCE.

§33-53-1. Coverage and dispensing birth control.

1 (a) Notwithstanding a prohibition or limitation contained within the provisions of §33-1-1 et seq. and §5-16-1 of this code an insurer subject to §5-16-1 et seq., §33-15-1 et seq., §33-16-1 et seq., §33-24-1 et seq., §33-25-1 et seq., and §33-25A-1 of this code which amends, renews, or delivers a health policy on or after January 1, 2021, that provides coverage for contraceptive drugs, shall provide coverage for a 12-month refill of contraceptive drugs obtained at one time by
the insured after the insured has completed the initial supply of the drugs, unless the insured requests a smaller supply or the prescribing provider instructs that the insured must receive a smaller supply. A health benefit plan that provides coverage shall allow the insured to receive the contraceptive drugs on-site at the provider’s office, if available, and dispensing practices must follow all clinical guidelines for appropriate prescribing and dispensing to ensure the health of the patient while maximizing access to effective contraceptive drugs.

(b) A health benefit plan that provides coverage for hormonal contraceptives, in the absence of clinical contraindications, may not impose utilization controls or other forms of medical management limiting the supply of contraceptive drugs that may be dispensed or furnished by a provider or pharmacy, or at a location licensed or otherwise authorized to dispense drugs or supplies, to an amount that is less than a 12-month supply.

(c) This section does not exclude coverage for contraceptive drugs as prescribed by a provider for reasons other than contraceptive purposes, such as decreasing the risk of ovarian cancer or eliminating symptoms of menopause, or for contraception that is necessary to preserve the life or health of an enrollee.

(d) Nothing in this section requires a health benefit plan to cover contraceptive drugs provided by a provider, pharmacy, or at a location authorized to dispense drugs or supplies, that does not participate in the health benefit plan’s provider or pharmacy network, as applicable, except as may be otherwise authorized or required by state law or by the plan’s policies governing out-of-network coverage.

(e) For purposes of this section, the term “contraceptive drugs” means all drugs approved by the United States Food and Drug Administration that are used to prevent pregnancy, including, but not limited to, hormonal drugs administered orally, transdermally, and intravaginally.
