WEST VIRGINIA LEGISLATURE

2021 REGULAR SESSION

ENROLLED

House Bill 2969

BY DELEGATES CONLEY, BARNHART, HOLSTEIN AND STEELE

[Passed April 7, 2021; in effect from passage.]
AN ACT to amend and reenact §17-16D-6 and §17-16D-10 of the Code of West Virginia, 1931, as amended; to amend and reenact §17-17-10, §17-17-11, §17-17-12, §17-17-21, and §17-17-22; to amend said code by adding thereto a new section, designated §17-17-38; to amend and reenact §17A-2A-7 and §17A-2A-9; and to amend and reenact §24-2-1 of said code, all relating to privately owned toll bridges; providing for the sale of a municipally owned toll bridge to a private toll transportation facility under certain circumstances; defining the term "private toll transportation facility"; authorizing disclosure of certain information in anticipation of litigation; authorizing the retention and collection of tolls on a privately owned toll bridge; clarifying procedures for the electronic collection of tolls by a private toll transportation facility; clarifying the tax treatment of toll bridges sold by a municipality to a private toll transportation facility; providing for the imposition of liability and nonrenewal of vehicle registration for failure to pay tolls on a privately owned toll bridge; clarifying the application of provisions of code to state owned and privately owned toll bridges; clarifying the jurisdiction of the Public Service Commission over toll bridges; and providing that commission does not have jurisdiction over certain telephone companies or municipal power systems.

Be it enacted by the Legislature of West Virginia:

CHAPTER 17. ROADS AND HIGHWAYS.

ARTICLE 16D. ELECTRONIC TOLL COLLECTION ACT.

(a) All owners and operators of motor vehicles shall pay the posted toll when on any toll road, highway, or bridge authorized by the Legislature, including any toll collected by a private toll transportation facility pursuant to §17-17-38 of this code, either by paying the toll at a toll collection facility on the toll road, highway, or bridge at the time of travel thereon or by paying the toll within the time prescribed for toll payment in a toll billing notice or invoice generated by an electronic toll collection system. These tolls may be collected by electronic toll collection. If an owner or operator...
of a vehicle fails to pay the prescribed toll when due, the owner of the vehicle is in violation of this
article.

(b) If a violation occurs, the registration plate number of the vehicle as recorded by a video
collection system establishes a rebuttable presumption for civil enforcement purposes that the
owner of the vehicle was operating the vehicle, or had consented to another person operating the
vehicle, at that time. This presumption may be overcome only if the owner: (1) proves by a
preponderance of the evidence that he or she was not in fact operating the vehicle at the time;
and (2) identifies by name and mailing address the person who was operating the vehicle.

(c) If the presumption is not overcome by a preponderance of the evidence, the owner of
the vehicle shall be found to have violated this article and be held responsible for payment of the
tolls and the administrative fees and money penalties imposed by this article for failure to timely
pay the tolls.

(d) Nothing in this section prohibits: (1) A law-enforcement officer from issuing a citation
to a person in control of a vehicle for a violation of this article or other provisions of law at the time
of the violation; (2) the Parkways Authority from issuing reminder notices or making other
communications directly or indirectly in connection with toll collection efforts or efforts to enforce
violations of this article. The Parkways Authority is authorized to use secondary sources of
information and services including, but not limited to, services such as the National Change of
Address Service or skip tracing services; or (3) a private toll transportation facility from issuing
any notices, reminders, or other communications in connection with its toll collection efforts
pursuant to §17-17-38(c) and §17-17-38(d) of this code.

§17-16D-10. Evading tolls; damaging, interfering with, or obstructing video toll collection
or infrastructure; violations and criminal penalties.

(a) Any person who knowingly or intentionally evades or seeks to evade the payment of
tolls, rents, fees, or charges established by the Parkways Authority for the use of any toll facility
under the jurisdiction of the Authority, or of any private toll transportation facility pursuant to §17-
17-38 of this code, is guilty of a misdemeanor and, upon conviction, shall be fined not more than $50 for each violation of this article.

(b) Any person who deliberately damages, defaces, or obstructs a video collection system infrastructure or power supply with the intent to interfere with, alter, or prevent the functioning of the system or electronic toll collection, or who obstructs a license plate or causes it to be unreadable by the video collection system, or who causes a transponder or other device used in an electronic toll system to be inoperable or unreadable thereby causing no toll to be charged, including a private toll transportation facility pursuant to §17-17-38 of this code, is guilty of a misdemeanor and, in addition to any other penalties provided by the code, and upon conviction, shall be fined not more than $500 for each such action and, if applicable, is additionally liable to the Parkways Authority or the private toll transportation facility for all costs incurred to repair the damaged, defaced, or obstructed property.

ARTICLE 17. TOLL BRIDGES.

§17-17-10. Payment of toll prior to passage; demand of excessive toll; evading payment of toll.

The proprietor of any toll bridge may require lawful toll to be paid previous to a passage thereover. Whoever shall knowingly or intentionally defraud, or attempt to defraud, the proprietor of any toll bridge by evading, or attempting to evade, the payment of lawful toll for crossing such bridge, or whoever shall aid another to evade, or attempt to evade, the payment of such toll, shall be guilty of a misdemeanor and, for every such offense shall, upon conviction thereof, be fined not in excess of $10.

§17-17-11. Gatekeeper to keep small change.

A gatekeeper on any toll bridge without an electronic toll collection system, as defined in §17-16D-2 of this code, shall keep such money of small denomination on hand, as may reasonably be required in the ordinary course of business, for making change for passengers, and it is the duty of passengers to offer money for passage of a denomination as near as possible
to the amount charged for such passage. This section shall not apply to persons now having a lawful right to pass on such bridge without the payment of toll.

§17-17-12. Failure to provide gatekeeper and to allow prompt passage.

If at any toll bridge without an electronic toll collection system there be a failure to give any person or property a passage over the same in a reasonable time, the proprietor thereof shall forfeit to such person not less than $2 nor more than $20. If the keeper of any toll bridge without an electronic toll collection system shall absent himself therefrom without leaving any person in charge of the gates thereon, he shall leave the gates open. Any keeper of a toll bridge without an electronic toll collection who shall fail to comply with the requirements of this section shall be guilty of a misdemeanor, and, upon conviction thereof, shall be fined $50 for every such offense; and any person injured by such failure shall be entitled to recover therefor from such keeper all damages sustained thereby.

§17-17-21. General supervision of bridges under jurisdiction of commissioner.

The commissioner of highways shall properly maintain, repair, operate, manage, and control the bridges owned by the state, fix the rates of tolls and establish bylaws and rules and regulations for the use and operation of the bridges owned by the state, and may make and enter into all contracts or agreements necessary and incidental to the performance of his duties and the execution of his powers under this article, including power to permit use of such bridges owned by the state by street railways and other transportation lines, and telephone, telegraph, pipe, and other lines, and contract with them for such use and fix the terms and conditions thereof and the charges or tolls for such use of the bridges owned by the state.

§17-17-22. Tolls to be charged for bond payment; intrastate and interstate bridges included in one issue; purchasing of existing bridges; disposition of tolls.

Tolls shall be fixed, charged, and collected for transit over such bridges owned by the state and shall be so fixed and adjusted, in respect of the aggregate of tolls from the bridge or bridges owned by the state for which a single issue of bonds is issued, as to provide a fund sufficient to pay the principal and interest of such issue of bonds and to provide an additional fund
to pay the cost of maintaining, repairing, and operating such bridge or bridges, subject, however,
to any applicable law or regulation of the United States of America now in force or hereafter to be
enacted or made. Two or more bridges owned by the state may be included in one issue of bonds,
and intrastate and interstate bridges may be grouped in the same issue: Provided, That no
existing bridge or bridges owned by the state shall be acquired by purchase, eminent domain, or
otherwise, unless the commissioner of highways shall have determined that the income
therefrom, based upon the toll receipts for the next preceding fiscal or calendar year, will be
sufficient to pay all expenses of operating and maintaining such bridge, in addition to the interest
and sinking fund requirements of any bonds to be issued to pay the purchase price thereof, or, if
such existing bridge or bridges owned by the state are to be combined with any other bridge or
bridges, either then existing or thereafter to be constructed or acquired by purchase, eminent
domain, or otherwise, as provided in §17-17-23b of this code, unless the commissioner of
highways shall have determined that the income from such combined bridges, based upon the
toll receipts for the next preceding fiscal or calendar year in the case of any existing bridge or
bridges and upon estimates of future toll receipts in the case of any bridge or bridges to be
constructed, will be sufficient to pay all expenses of operating and maintaining such combined
bridges, in addition to the interest and sinking fund requirements of any bonds issued to pay the
purchase price of such existing bridge or bridges and the interest and sinking fund requirements
of any bonds issued to pay the cost of construction, acquiring, modernizing, repairing,
reconstructing, or improving any bridge or bridges and approaches thereto, with which such
existing bridge or bridges are to be so combined. The tolls from the bridge or bridges for which a
single issue of bonds is issued, except such part thereof, as may be necessary to pay such cost
of maintaining, repairing, and operating during any period in which such cost is not otherwise
provided for (during which period the tolls may be reduced accordingly), shall be transmitted each
month to the West Virginia Municipal Bond Commission and by it placed in a special fund which
is hereby pledged to and charged with the payment of the principal of such bonds and the interest
thereon, and to the redemption or repurchase of such bonds, such special fund to be a fund for all such bonds without distinction or priority of one over another. The moneys in such special fund, less a reserve for payment of interest, if not used by the West Virginia Municipal Bond Commission within a reasonable time for the purchase of bonds for cancellation at a price not exceeding the market price and not exceeding the redemption price, shall be applied to the redemption of bonds by lot at the redemption price then applicable. Notwithstanding the foregoing, payments of principal and interest on any bonds owned by the United States or any governmental agency or department thereof may be made by the governing body directly thereto.

Any bridge or bridges constructed or acquired by purchase, eminent domain, or otherwise, or reconstructed, repaired, or improved, under the provisions of this article and forming a connecting link between two or more state highways, or providing a river crossing for a state highway, are hereby adopted as a part of the state road system, but no such bridge or bridges shall be constructed or acquired by purchase, eminent domain, or otherwise, or reconstructed, repaired, or improved by the state, under the provisions of this article without the approval in writing of the commissioner of highways and the Governor. If there be in the funds of the West Virginia Municipal Bond Commission an amount insufficient to pay the interest and sinking fund on any bonds issued for the purpose of constructing or acquiring by purchase, eminent domain, or otherwise, or reconstructing, repairing, or improving, such bridge or bridges, the commissioner of highways is authorized and directed to allocate to said commission, from the state road fund, an amount sufficient to pay the interest on said bonds and/or the principal thereof, as either may become due and payable.

§17-17-38. Municipal sale of ownership of toll bridges to private toll transportation facility; maintenance of tolls; imposition of liability for collection and payment; tax treatment and divestment.

(a) Sale of municipally owned toll bridge. – Any municipality which owns and operates a toll bridge pursuant to this article may, at the sole discretion of the municipality, and upon adoption
of a resolution to such effect by the council of such municipality, sell and convey such toll bridge
to a private toll transportation facility subject to such terms and conditions as the council of such
municipality may agree.

(b) Privilege to maintain tolls. — Any private toll transportation facility purchasing a municipally-owned toll bridge located fewer than five miles from a toll-free bridge which crosses the same body of water or obstacle pursuant to subsection (a) of this section may retain, modify, and collect any such toll charges for the use thereof on persons and things passing over any such bridge as the facility may, by resolution, from time to time prescribe.

(c) Electronic collection of tolls and imposition of liability for payment. — The collection and enforcement of tolls for the use of any such bridge may be accomplished by electronic toll collection in the same manner and procedures as provided in §17-160-1 et seq. of this code, and the imposition of liability for payment of such tolls shall apply as set forth specifically in §17-16D-5, §17-16D-6, §17-16D-7, and §17-16D-10 of this code: Provided, That the toll rates provided for in §17-17-9 of this code shall not apply to a private toll transportation facility.

(d) Nonrenewal of vehicle registration. — If an owner of a vehicle has received at least one invoice from a private toll transportation facility for any unpaid tolls and has: (1) failed to pay the unpaid tolls and administrative fees, and (2) failed to file a notice to contest liability for a toll violation as provided for in the invoice, then the private toll transportation facility may notify the Commissioner of the Division of Motor Vehicles, who shall, if no form contesting liability has been timely filed with the private toll transportation facility, refuse to register or renew the registration of any vehicle of which the person committing the violation is a registered owner or co-owner until such time as the private toll transportation facility has notified the commissioner that such fees and unpaid tolls have been paid or satisfied.

(e) Tax treatment of municipally owned toll bridge sold to private toll transportation facility. — A municipally owned toll bridge sold to a private transportation facility pursuant to this section shall be considered exempt for purposes of ad valorem property taxation under §11-1-1 et seq.
Provided, That if said exemption is in any way held to be invalid, then the value of a municipally owned toll bridge purchased by a private toll transportation facility, for purposes of ad valorem property taxation under §11-1-1 et seq. of this code, shall in no event be valued at more than its salvage value, which for purposes of this article is the lower of fair market salvage value or five percent of the original cost of the property.

(f) Divestment of private toll bridge. – Nothing in this section shall be construed to limit or prevent the subsequent sale, lease, assignment, or transfer of a municipally-owned toll bridge purchased by a private toll transportation facility, provided that all other requirements of this section are met.

(g) Definitions. – For purposes of this section, the term “private toll transportation facility” means any natural person, corporation, general partnership, limited liability company, limited partnership, joint venture, business trust, public benefit corporation, nonprofit entity, or other business entity engaged in the collecting or charging of tolls on a previously municipal-owned toll bridge pursuant to this article.

CHAPTER 17A. MOTOR VEHICLE ADMINISTRATION, REGISTRATION, CERTIFICATION OF TITLE, AND ANTITHEFT PROVISIONS.

ARTICLE 2A. UNIFORM MOTOR VEHICLE RECORDS DISCLOSURE ACT.

The division or its designee shall disclose personal information as defined in section three of this article to any person who requests the information if the person: (a) Has proof of his or her identity; and (b) verifies that the use of the personal information will be strictly limited to one or more of the following:

(1) For use by any governmental agency, including any court or law-enforcement agency, in carrying out its functions, or any private person or entity acting on behalf of a governmental agency in carrying out its functions;
(2) For use in connection with matters of motor vehicle or driver safety and theft, motor vehicle product alterations, recalls or advisories, performance monitoring of motor vehicles, motor vehicle parts and dealers, motor vehicle market research activities including survey research and removal of nonowner records from the original owner records of motor vehicle manufacturers;

(3) For use in the normal course of business by a legitimate business or its agents, employees or contractors:

(A) For the purpose of verifying the accuracy of personal information submitted by the individual to the business or its agents, employees or contractors; and

(B) If the information as submitted is not correct or is no longer correct, to obtain the correct information, but only for the purposes of preventing fraud by, pursuing legal remedies against or recovering on a debt or security interest against the individual;

(4) For use in conjunction with any civil, criminal, administrative, or arbitral proceeding in any court or governmental agency or before any self-regulatory body, including investigation in anticipation of litigation, the service of process, the execution or enforcement of judgments and orders, or pursuant to an order of any court;

(5) For use in research and producing statistical reports, so long as the personal information is not published, redisclosed or used to contact individuals;

(6) For use by any insurer or insurance support organization or by a self-insured entity, its agents, employees or contractors in connection with claim investigation activities, antifraud activities, rating or underwriting;

(7) For use in providing notice to the owners of towed or impounded vehicles;

(8) For use by any licensed private investigator agency or licensed security service for any purpose permitted under this section;

(9) For use by an employer or its agent or insurer to obtain or verify information relating to a holder of a commercial driver’s license that is required under the Commercial Motor Vehicle Safety Act of 1986 (49 U.S.C. App. 2710 et seq.);
(10) For use in connection with the operation of private toll transportation facilities; and
(11) For any other use specifically authorized by law that is related to the operation of a motor vehicle or public safety.

Any person making a request for disclosure of personal information required or permitted under sections five through eight of this article, inclusive, shall pay to the division all reasonable fees related to providing the information: Provided, That all fees under this section shall be set by legislative rule pursuant to §29A-3-1 et seq. of this code: Provided, however, That nothing herein shall prohibit the division from entering into a separate fee agreement with a private toll transportation facility to facilitate permitted disclosures pursuant to §17A-2A-7 of this code.

CHAPTER 24. PUBLIC SERVICE COMMISSION.

ARTICLE 2. POWERS AND DUTIES OF PUBLIC SERVICE COMMISSION.

§24-2-1. Jurisdiction of commission; waiver of jurisdiction.

(a) The jurisdiction of the commission shall extend to all public utilities in this state and shall include any utility engaged in any of the following public services:

Common carriage of passengers or goods, whether by air, railroad, street railroad, motor, or otherwise, by express or otherwise, by land, water, or air, whether wholly or partly by land, water, or air; transportation of oil, gas, or water by pipeline; transportation of coal and its derivatives and all mixtures and combinations thereof with other substances by pipeline; sleeping car or parlor car services; transmission of messages by telephone, telegraph, or radio; generation and transmission of electrical energy by hydroelectric or other utilities for service to the public, whether directly or through a distributing utility; supplying water, gas, or electricity by municipalities or others; sewer systems servicing 25 or more persons or firms other than the owner of the sewer systems: Provided, That if a public utility other than a political subdivision intends to provide sewer service by an innovative, alternative method, as defined by the federal
Environmental Protection Agency, the innovative, alternative method is a public utility function and subject to the jurisdiction of the Public Service Commission regardless of the number of customers served by the innovative, alternative method; any public service district created under the provisions of §16-13A-1 et seq. of this code, except that the Public Service Commission will have no jurisdiction over the provision of stormwater services by a public service district; toll bridges located more than five miles from a toll-free bridge which crosses the same body of water or obstacle, wharves, ferries; solid waste facilities; and any other public service: Provided, however, That natural gas producers who provide natural gas service to not more than 25 residential customers are exempt from the jurisdiction of the commission with regard to the provisions of the residential service: Provided further, That upon request of any of the customers of the natural gas producers, the commission may, upon good cause being shown, exercise such authority as the commission may deem appropriate over the operation, rates, and charges of the producer and for such length of time as the commission may consider to be proper.

(b) The jurisdiction of the commission over political subdivisions of this state providing separate or combined water and/or sewer services and having at least 4,500 customers and annual combined gross revenues of $3 million or more that are political subdivisions of the state is limited to:

(1) General supervision of public utilities, as granted and described in §24-2-5 of this code;

(2) Regulation of measurements, practices, acts, or services, as granted and described in §24-2-7 of this code;

(3) Regulation of a system of accounts to be kept by a public utility that is a political subdivision of the state, as granted and described in §24-2-8 of this code;

(4) Submission of information to the commission regarding rates, tolls, charges, or practices, as granted and described in §24-2-9 of this code;
(5) Authority to subpoena witnesses, take testimony, and administer oaths to any witness in any proceeding before or conducted by the commission, as granted and described in §24-2-10 of this code; and

(6) Investigation and resolution of disputes between a political subdivision of the state providing wholesale water and/or wastewater treatment or other services, whether by contract or through a tariff, and its customer or customers, including, but not limited to, rates, fees, and charges, service areas and contested utility combinations: Provided, That any request for an investigation related to such a dispute that is based on the act or omission of the political subdivision shall be filed within 30 days of the act or omission of the political subdivision and the commission shall resolve said dispute within 120 days of filing. The 120-day period for resolution of the dispute may be tolled by the commission until the necessary information showing the basis of the rates, fees, and charges or other information as the commission considers necessary is filed: Provided, however, That the disputed rates, fees, and charges so fixed by the political subdivision providing separate or combined water and/or sewer services shall remain in full force and effect until set aside, altered or, amended by the commission in an order to be followed in the future.

(7) Customers of water and sewer utilities operated by a political subdivision of the state may bring formal or informal complaints regarding the commission's exercise of the powers enumerated in this section and the commission shall resolve these complaints: Provided, That any formal complaint filed under this section that is based on the act or omission of the political subdivision shall be filed within 30 days of the act or omission complained of and the commission shall resolve the complaint within 180 days of filing. The 180-day period for resolution of the dispute may be tolled by the commission until the necessary information showing the basis of the matter complained of is filed by the political subdivision: Provided, however, That whenever the commission finds any regulations, measurements, practices, acts, or service to be unjust, unreasonable, insufficient, or unjustly discriminatory, or otherwise in violation of any provisions of
this chapter, or finds that any service is inadequate, or that any service which is demanded cannot
be reasonably obtained, the commission shall determine and declare, and by order fix reasonable
measurement, regulations, acts, practices, or services, to be furnished, imposed, observed, and
followed in lieu of those found to be unjust, unreasonable, insufficient, or unjustly discriminatory,
inadequate, or otherwise in violation of this chapter, and shall make such other order respecting
the same as shall be just and reasonable: Provided further, That if the matter complained of would
affect rates, fees, and charges so fixed by the political subdivision providing separate or combined
water and/or sewer services, the rates, fees, or charges shall remain in full force and effect until
set aside, altered, or amended by the commission in an order to be followed in the future.

(8) If a political subdivision has a deficiency in either its bond revenue or bond reserve
accounts, or is otherwise in breach of a bond covenant, any bond holder may petition the Public
Service Commission for such redress as will bring the accounts to current status or otherwise
resolve the breached covenant, and the commission shall have jurisdiction to fully resolve the
alleged deficiency or breach.

(c) The commission may, upon application, waive its jurisdiction and allow a utility
operating in an adjoining state to provide service in West Virginia when:

(1) An area of West Virginia cannot be practicably and economically served by a utility
licensed to operate within the State of West Virginia;

(2) The area can be provided with utility service by a utility which operates in a state
adjoining West Virginia;

(3) The utility operating in the adjoining state is regulated by a regulatory agency or
commission of the adjoining state; and

(4) The number of customers to be served is not substantial. The rates the out-of-state
utility charges West Virginia customers shall be the same as the rate the utility is duly authorized
to charge in the adjoining jurisdiction. The commission, in the case of any such utility, may revoke
its waiver of jurisdiction for good cause.
(d) Any other provisions of this chapter to the contrary notwithstanding:

(1) An owner or operator of an electric generating facility located or to be located in this state that has been designated as an exempt wholesale generator under applicable federal law, or will be so designated prior to commercial operation of the facility, and for which such facility the owner or operator holds a certificate of public convenience and necessity issued by the commission on or before July 1, 2003, is subject to §24-2-11c(e) through §24-2-11c(j) of this code as if the certificate of public convenience and necessity for the facility were a siting certificate issued under §24-2-11c of this code and is not otherwise subject to the jurisdiction of the commission or to the provisions of this chapter with respect to the facility except for the making or constructing of a material modification thereof as provided in §24-2-1(d)(5) of this code.

(2) Any person, corporation, or other entity that intends to construct or construct and operate an electric generating facility to be located in this state that has been designated as an exempt wholesale generator under applicable federal law, or will be so designated prior to commercial operation of the facility, and for which facility the owner or operator does not hold a certificate of public convenience and necessity issued by the commission on or before July 1, 2003, shall, prior to commencement of construction of the facility, obtain a siting certificate from the commission pursuant to the provisions of §24-2-11c of this code in lieu of a certificate of public convenience and necessity pursuant to the provisions of §24-2-11 of this code. An owner or operator of an electric generating facility as is described in this subdivision for which a siting certificate has been issued by the commission is subject to §24-2-11c(e) through §24-2-11c(j) of this code and is not otherwise subject to the jurisdiction of the commission or to the provisions of this chapter with respect to the facility except for the making or constructing of a material modification thereof as provided in §24-2-1(d)(5) of this code.

(3) An owner or operator of an electric generating facility located in this state that had not been designated as an exempt wholesale generator under applicable federal law prior to commercial operation of the facility that generates electric energy solely for sale at retail outside
this state or solely for sale at wholesale in accordance with any applicable federal law that
preempts state law or solely for both sales at retail and sales at wholesale and that had been
constructed and had engaged in commercial operation on or before July 1, 2003, is not subject
to the jurisdiction of the commission or to the provisions of this chapter with respect to the facility,
regardless of whether the facility subsequent to its construction has been or will be designated as
an exempt wholesale generator under applicable federal law: Provided, That the owner or
operator is subject to §24-2-1(d)(5) of this code if a material modification of the facility is made or
constructed.

(4) Any person, corporation, or other entity that intends to construct or construct and
operate an electric generating facility to be located in this state that has not been or will not be
designated as an exempt wholesale generator under applicable federal law prior to commercial
operation of the facility that will generate electric energy solely for sale at retail outside this state
or solely for sale at wholesale in accordance with any applicable federal law that preempts state
law or solely for both sales at retail and sales at wholesale and that had not been constructed and
had not been engaged in commercial operation on or before July 1, 2003, shall, prior to
commencement of construction of the facility, obtain a siting certificate from the commission
pursuant to the provisions of §24-2-11c of this code in lieu of a certificate of public convenience
and necessity pursuant to the provisions of §24-2-11 of this code. An owner or operator of an
electric generating facility as is described in this subdivision for which a siting certificate has been
issued by the commission is subject to §24-2-11c(e) through §24-2-11c(j) of this code and is not
otherwise subject to the jurisdiction of the commission or to the provisions of this chapter with
respect to the facility except for the making or constructing of a material modification thereof as
provided in §24-2-1(d)(5) of this code.

(5) An owner or operator of an electric generating facility described in this subsection shall,
before making or constructing a material modification of the facility that is not within the terms of
any certificate of public convenience and necessity or siting certificate previously issued for the
facility or an earlier material modification thereof, obtain a siting certificate for the modification from the commission pursuant to the provisions of §24-2-11c of this code in lieu of a certificate of public convenience and necessity for the modification pursuant to the provisions of §24-2-11 of this code and, except for the provisions of §24-2-11c of this code, is not otherwise subject to the jurisdiction of the commission or to the provisions of this chapter with respect to the modification.

(6) The commission shall consider an application for a certificate of public convenience and necessity filed pursuant to §24-2-11 of this code to construct an electric generating facility described in this subsection or to make or construct a material modification of the electric generating facility as an application for a siting certificate pursuant to §24-2-11c of this code if the application for the certificate of public convenience and necessity was filed with the commission prior to July 1, 2003, and if the commission has not issued a final order thereon as of that date.

(7) The limitations on the jurisdiction of the commission over, and on the applicability of the provisions of this chapter to, the owner or operator of an electric generating facility as imposed by and described in this subsection do not affect or limit the commission’s jurisdiction over contracts or arrangements between the owner or operator of the facility and any affiliated public utility subject to the provisions of this chapter.

(e) The commission does not have jurisdiction of Internet protocol-enabled service or voice-over Internet protocol-enabled service. As used in this subsection:

(1) “Internet protocol-enabled service” means any service, capability, functionality, or application provided using Internet protocol, or any successor protocol, that enables an end user to send or receive a communication in Internet protocol format, or any successor format, regardless of whether the communication is voice, data, or video.

(2) “Voice-over Internet protocol service” means any service that:

(i) Enables real-time two-way voice communications that originate or terminate from the user’s location using Internet protocol or a successor protocol; and

(ii) Uses a broadband connection from the user’s location.
(3) The term “voice-over Internet protocol service” includes any service that permits users to receive calls that originate on the public-switched telephone network and to terminate calls on the public-switched telephone network.

(f) Notwithstanding any other provisions of this article, the commission shall not have jurisdiction to review or approve any transaction involving a telephone company otherwise subject to §24-2-12 and §24-2-12a of this code if all entities involved in the transaction are under common ownership.

(g) The Legislature finds that the rates, fees, charges, and ratemaking of municipal power systems are most fairly and effectively regulated by the local governing body. Therefore, notwithstanding any other provisions of this article, the commission shall not have jurisdiction over the setting or adjustment of rates, fees, and charges of municipal power systems. Further, the jurisdiction of the Public Service Commission over municipal power systems is limited to that granted specifically in this code.
The Joint Committee on Enrolled Bills hereby certifies that the foregoing bill is correctly enrolled.
