§5-10-27b. Federal law minimum required distributions.

The requirements of this section apply to any distribution of a member’s or beneficiary’s
interest and take precedence over any inconsistent provisions of this code. This provision applies
to plan years beginning after December 31, 1986. Notwithstanding anything in this code to the
contrary, the payment of benefits under this article shall be determined and made in accordance
with Section 401(a)(9) of the Internal Revenue Code and the federal regulations promulgated
thereunder as applicable to governmental plans, including without limitation the minimum
distribution incidental benefit (MDIB) requirement of section 401(a)(9)(G) and the regulations
thereunder, and the incidental benefit rule of section 1.401-1(b)(1)(i) of the regulations. Any term
used in this article has the same meaning as when used in a comparable context in section
401(a)(9) of the Internal Revenue Code and the federal regulations promulgated thereunder
unless a different meaning is clearly required by the context or definition in this article. The
following provisions apply to payments of benefits required under this article:

(a) The payment of benefits under the retirement system to any member shall be
distributed to him or her not later than the required beginning date, or be distributed to him or her
commencing not later than the required beginning date, in accordance with regulations prescribed
under Section 401(a)(9) of the Internal Revenue Code, over the life of the member or over the
lives of the member and his or her beneficiary or over a period not extending beyond the life
expectancy of the member and his or her beneficiary: Provided, That the requirements of this
section shall not be construed to grant a right to a form of benefit which is not otherwise available
to a particular member under this retirement system: Provided, however, That if the member
elects an annuity option which provides survivor benefits to a beneficiary who is not the member's spouse, and the annuity option elected would provide survivor payments that exceed the applicable percentage permitted by the MDIB regulations under Section 401(a)(9) of the Internal Revenue Code, the member's annuity election shall be changed to the highest survivor annuity option offered under this retirement system which satisfies the MDIB regulations. Benefit payments under this section shall not be delayed pending, or contingent upon, receipt of an application for retirement from the member.

(b) If a member dies after distribution to him or her has commenced pursuant to this section but before his or her entire interest in the retirement system has been distributed, then the remaining portion of that interest shall be distributed at least as rapidly as under the method of distribution being used at the date of his or her death.

(c) If a member dies before distribution to him or her has commenced, then his or her entire interest in the retirement system is to be distributed by December 31 of the calendar year containing the fifth anniversary of the member's death, unless the provisions of subsection (d) of this section apply.

(d) If a member dies before distribution to him or her has commenced, and the member's interest is eligible to be paid in the form of a survivor annuity to a designated beneficiary, distributions are to be made over the life of that beneficiary or over a period certain not greater than the life expectancy of that beneficiary, commencing on or before the following:

(1) December 31 of the calendar year immediately following the calendar year in which the member died; or

(2) If the member's sole designated beneficiary is either the surviving spouse or a former spouse who, as an alternate payee under a Qualified Domestic Relations Order, is receiving 100 percent of the survivor benefit, distributions are to commence on or before the later of:

(A) December 31 of the calendar year in which the member would have attained age 70.5 (if born before July 1, 1949) or age 72 (if born after June 30, 1949); or
(B) December 31 of the calendar year immediately following the calendar year in which
the member died.

(e) If a member dies before distribution to him or her has commenced and the survivor
annuity provisions of subsection (d) of this section are not applicable, any designated beneficiary
who is eligible to receive a distribution pursuant to the provisions of subsection (c) of this section
may elect to have life expectancy treatment apply to the distribution for purposes of determining
whether any portion of the distribution is an eligible rollover distribution: Provided, That any such
election shall not delay the required distribution of the deceased member’s entire interest in the
retirement system beyond December 31 of the calendar year containing the fifth anniversary of
the member’s death as required by subsection (c) of this section: Provided, however, That the
election is timely made in a form acceptable to the board on or before the following:

(1) December 31 of the calendar year immediately following the calendar year in which
the member died; or

(2) If the member’s sole designated beneficiary is either the surviving spouse or a former
spouse who, as an alternate payee under a Qualified Domestic Relations Order, is receiving 100
percent of the survivor benefit, election of life expectancy treatment must be made on or before
the earlier of (A) or (B) below:

(A) The later of: (i) December 31 of the calendar year immediately following the calendar
year in which the member died; or (ii) December 31 of the calendar year in which the member
would have attained age 70.5 (if born before July 1, 1949) or age 72 (if born after June 30, 1949);
or

(B) October 31 of the calendar year containing the fifth anniversary of the member’s death.

§5-10-44. Correction of errors; underpayments; overpayments.

(a) General rule. — Upon learning of any errors, the board shall correct errors in the
retirement system in a timely manner whether an individual, entity or board was at fault for the
error with the intent of placing the affected individual, entity and retirement board in the position
each would have been in had the error not occurred.

(b) Underpayments to the retirement system. — Any error resulting in an underpayment
to the retirement system may be corrected by the member or retirant remitting the required
employee contribution or underpayment and the participating public employer remitting the
required employer contribution or underpayment. Interest shall accumulate in accordance with
the legislative rule 162 CSR 7 concerning retirement board refund, reinstatement, retroactive
service, loan and correction of error interest factors and any accumulating interest owed on the
employee and employer contributions or underpayments resulting from an employer error shall
be the responsibility of the participating public employer. The participating public employer may
remit total payment and the employee reimburse the participating public employer through payroll
deduction over a period equivalent to the time period during which the employer error occurred.
If the correction of an error involving an underpayment to the retirement system will result in the
retirement system paying a retirant an additional amount, this additional payment shall be made
only after the board receives full payment of all required employee and employer contributions or
underpayments, including interest.

(c) Overpayments to the retirement system by an employer. — When mistaken or excess
employer contributions or other employer overpayments have been made to the retirement
system, the board shall credit the employer with an amount equal to the overpayment, to be offset
against the employer’s future liability for employer contributions to the system. If the employer has
no future liability for employer contributions to the retirement system, the board shall refund the
erroneous contributions directly to the employer. Earnings or interest shall not be returned, offset
or credited to the employer under any of the means used by the board for returning employer
overpayments to the retirement system.

(d) Overpayments to the retirement system by an employee. — When mistaken or excess
employee contributions or overpayments have been made to the retirement system, the board
shall have sole authority for determining the means of return, offset or credit to or for the benefit of the individual making the mistaken or excess employee contribution of the amounts, and may use any means authorized or permitted under the provisions of section 401(a), *et seq.* of the Internal Revenue Code and guidance issued thereunder applicable to governmental plans. Alternatively, in its full and complete discretion, the board may require the participating public employer employing the individual to pay the individual the amounts as wages, with the board crediting the participating public employer with a corresponding amount to offset against its future contributions to the plan. If the employer has no future liability for employer contributions to the retirement system, the board shall refund said amount directly to the employer: *Provided,* That the wages paid to the individual shall not be considered compensation for any purposes of this article. Earnings or interest shall not be returned, offset or credited under any of the means used by the board for returning employee overpayments.

*(e) Overpayments from the retirement system.* — If any error results in any member, retiree, beneficiary, entity or other individual receiving from the system more than he would have been entitled to receive had the error not occurred, the board, upon learning of the error, shall correct the error in a timely manner. If correction of the error occurs after annuity payments to a retiree or beneficiary have commenced, the board shall prospectively adjust the payment of the benefit to the correct amount. In addition, the member, retiree, beneficiary, entity or other person who received the overpayment from the retirement system shall repay the amount of any overpayment to the retirement system in any manner permitted by the board. If the member, retiree, beneficiary or other person who received the overpayment is deceased and an annuity or lump sum benefit is still payable, the amount of the remaining overpayment shall be offset against the benefit payment owed in a manner consistent with the board's error correction policy. Interest shall not accumulate on any corrective payment made to the retirement system pursuant to this subsection.
(f) Underpayments from the retirement system. — If any error results in any member, retirant, beneficiary, entity or other individual receiving from the retirement system less than he would have been entitled to receive had the error not occurred, the board, upon learning of the error, shall correct the error in a timely manner. If correction of the error occurs after annuity payments to a retirant or beneficiary have commenced, the board shall prospectively adjust the payment of the benefit to the correct amount. In addition, the board shall pay the amount of such underpayment to the member, retirant, beneficiary or other individual in a lump sum. Interest shall not be paid on any corrective payment made by the retirement system pursuant to this subsection.

(g) Eligibility errors. — If the board finds that an individual, employer, or both individual and employer currently or formerly participating in the retirement system is not eligible to participate, the board shall notify the individual and his or her employer of the determination and terminate participation in the retirement system. Any erroneous payments to the retirement system shall be returned to the employer and individual in accordance with the methods described in subsections (c) and (d) of this section and any erroneous payments from the retirement system to such individual shall be returned to the retirement system in accordance with the methods described in subsection (e) of this section. Any erroneous service credited to the individual shall be removed. If the board determines that an individual or employer, or both, has not been participating in the retirement system, but was eligible to and required to be participating in the retirement system, the board shall as soon as practicable notify the individual and his or her employer of the determination and the individual and his or her employer shall prospectively commence participation in the retirement system as soon as practicable. Service credit for service prior to the date on which the individual prospectively commences participation in the retirement system shall be granted only if the board receives the required employer and employee contributions for such service, in accordance with subsection (b) of this section, including interest.

(t) “Employer error” means an omission, misrepresentation, or deliberate act in violation of relevant provisions of the West Virginia Code or of the West Virginia Code of State Rules or the relevant provisions of both the West Virginia Code and of the West Virginia Code of State Rules by the participating public employer that has resulted in an underpayment or overpayment of contributions required.

(u) “Effective date” means July 1, 1998.

(v) “Final average salary” means the average of the highest annual compensation received for covered employment by the member during any five consecutive plan years within the member’s last 10 years of service. If the member did not have annual compensation for the five full plan years preceding the member’s attainment of normal retirement age and during that period the member received disability benefits under §7-14D-14 or §7-14D-15 of this code then “final average salary” means the average of the full monthly salary determined paid to the member during that period multiplied by 12.

(w) “Fund” means the West Virginia Deputy Sheriff Retirement Fund created pursuant to §7-14D-6 of this code.

(x) “Hour of service” means:

(1) Each hour for which a member is paid or entitled to payment for covered employment during which time active duties are performed. These hours shall be credited to the member for the plan year in which the duties are performed; and

(2) Each hour for which a member is paid or entitled to payment for covered employment during a plan year but where no duties are performed due to vacation, holiday, illness, incapacity
including disability, layoff, jury duty, military duty, leave of absence, or any combination thereof and without regard to whether the employment relationship has terminated. Hours under this paragraph shall be calculated and credited pursuant to West Virginia Division of Labor rules. A member will not be credited with any hours of service for any period of time he or she is receiving benefits under §7-14D-14 or §7-14D-15 of this code; and

(3) Each hour for which back pay is either awarded or agreed to be paid by the employing county commission, irrespective of mitigation of damages. The same hours of service shall not be credited both under this paragraph and paragraph (1) or (2) of this subdivision. Hours under this paragraph shall be credited to the member for the plan year or years to which the award or agreement pertains rather than the plan year in which the award, agreement, or payment is made.

(y) “Member” means a person first hired as a deputy sheriff after the effective date of this article, as defined in subdivision (u) of this section, or a deputy sheriff first hired prior to the effective date and who elects to become a member pursuant to §7-14D-5 or §7-14D-17 of this code. A member shall remain a member until the benefits to which he or she is entitled under this article are paid or forfeited or until cessation of membership pursuant to §7-14D-5 of this code.

(z) “Monthly salary” means the portion of a member’s annual compensation which is paid to him or her per month.

(aa) “Normal form” means a monthly annuity which is one-twelfth of the amount of the member’s accrued benefit which is payable for the member’s life. If the member dies before the sum of the payments he or she receives equals his or her accumulated contributions on the annuity starting date, the named beneficiary shall receive in one lump sum the difference between the accumulated contributions at the annuity starting date and the total of the retirement income payments made to the member.

(bb) “Normal retirement age” means the first to occur of the following: (1) Attainment of age 50 years and the completion of 20 or more years of service; (2) while still in covered
employment, attainment of at least age 50 years, and when the sum of current age plus years of
service equals or exceeds 70 years; (3) while still in covered employment, attainment of at least
age 60 years, and completion of five years of service; or (4) attainment of age 62 years and
completion of five or more years of service.

(cc) "Partially disabled" means a member's inability to engage in the duties of deputy
sheriff by reason of any medically determinable physical or mental impairment that can be
expected to result in death or that has lasted or can be expected to last for a continuous period
of not less than 12 months. A member may be determined partially disabled for the purposes of
this article and maintain the ability to engage in other gainful employment which exists within the
state but which ability would not enable him or her to earn an amount at least equal to two thirds
of the average annual compensation earned by all active members of this plan during the plan
year ending as of the most recent June 30, as of which plan data has been assembled and used
for the actuarial valuation of the plan.

(dd) "Public Employees Retirement System" means the West Virginia Public Employees
Retirement System created by §5-10-1 et seq. of this code.

and ending the following June 30.

(gg) "Qualified public safety employee" means any employee of a participating state or
political subdivision who provides police protection, fire-fighting services, or emergency medical
services for any area within the jurisdiction of the state or political subdivision, or such other
meaning given to the term by section 72(t)(10)(B) of the Internal Revenue Code or by Treasury
Regulation §1.401(a)-1(b)(2)(v) as they may be amended from time to time.

annually, as the board adopts in accordance with the provisions of this article.
(ii) “Required beginning date” means April 1 of the calendar year following the later of: (i) The calendar year in which the member attains age 70.5 (if born before July 1, 1949) or age 72 (if born after June 30, 1949); or (ii) the calendar year in which he or she retires or otherwise separates from covered employment.

(nn) “Totally disabled” means a member’s inability to engage in substantial gainful activity by reason of any medically determined physical or mental impairment that can be expected to result in death or that has lasted or can be expected to last for a continuous period of not less than 12 months. For purposes of this subdivision:

(1) A member is totally disabled only if his or her physical or mental impairment or impairments are so severe that he or she is not only unable to perform his or her previous work as a deputy sheriff but also cannot, considering his or her age, education and work experience, engage in any other kind of substantial gainful employment which exists in the state regardless of whether: (A) The work exists in the immediate area in which the member lives; (B) a specific job vacancy exists; or (C) the member would be hired if he or she applied for work.

(2) “Physical or mental impairment” is an impairment that results from an anatomical, physiological, or psychological abnormality that is demonstrated by medically accepted clinical and laboratory diagnostic techniques. A member’s receipt of Social Security disability benefits
creates a rebuttable presumption that the member is totally disabled for purposes of this plan.

Substantial gainful employment rebuts the presumption of total disability.

(oo) "Year of service". — A member shall, except in his or her first and last years of covered employment, be credited with year of service credit based upon the hours of service performed as covered employment and credited to the member during the plan year based upon the following schedule:

<table>
<thead>
<tr>
<th>Hours of Service</th>

<td>Less than 500</td>
<td>0</td>

During a member’s first and last years of covered employment, the member shall be credited with one-twelfth of a year of service for each month during the plan year in which the member is credited with an hour of service. A member is not entitled to credit for years of service for any time period during which he or she received disability payments under §7-14D-14 or §7-14D-15 of this code. Except as specifically excluded, years of service include covered employment prior to the effective date. Years of service which are credited to a member prior to his or her receipt of accumulated contributions upon termination of employment pursuant to §7-14D-13 or §5-10-30 of this code, shall be disregarded for all purposes under this plan unless the member repays the accumulated contributions with interest pursuant to §7-14D-13 of this code or had prior to the effective date made the repayment pursuant to §5-10-18 of this code.

§7-14D-7a. Correction of errors; underpayments; overpayments.

(a) General rule: Upon learning of errors, the board shall correct errors in the retirement plan in a timely manner whether the individual, entity or board was at fault for the error with the intent of placing the affected individual, entity and board in the position each would have been in had the error not occurred.
(b) Underpayments to the plan: Any error resulting in an underpayment to the plan may be corrected by the member or retirant remitting the required employee contribution or underpayment and the participating public employer remitting the required employer contribution or underpayment. Interest shall accumulate in accordance with the legislative rule 162 CSR 7 concerning retirement board refund, reinstatement, retroactive service, loan and correction of error interest factors and any accumulating interest owed on the employee and employer contributions or underpayments resulting from an employer error shall be the responsibility of the participating public employer. The participating public employer may remit total payment and the employee reimburse the participating public employer through payroll deduction over a period equivalent to the time period during which the employer error occurred. If the correction of an error involving an underpayment to the plan will result in the plan paying a retirant an additional amount, this additional payment shall be made only after the board receives full payment of all required employee and employer contributions or underpayments, including interest.

(c) Overpayments to the plan by an employer: When mistaken or excess employer contributions or other employer overpayments have been made to the plan, the board shall credit the employer with an amount equal to the overpayment, to be offset against the employer’s future liability for employer contributions to the plan. If the employer has no future liability for employer contributions to the retirement system, the board shall refund the erroneous contributions directly to the employer. Earnings or interest shall not be returned, offset, or credited to the employer under any of the means used by the board for returning employer overpayments made to the plan.

(d) Overpayments to the plan by an employee: When mistaken or excess employee contributions or overpayments have been made to the retirement system, the board shall have sole authority for determining the means of return, offset or credit to or for the benefit of the individual making the mistaken or excess employee contribution of the amounts, and may use any means authorized or permitted under the provisions of section 401(a), et seq. of the Internal
Revenue Code and guidance issued thereunder applicable to governmental plans. Alternatively, in its full and complete discretion, the board may require the participating public employer employing the individual to pay the individual the amounts as wages, with the board crediting the participating public employer with a corresponding amount to offset against its future contributions to the plan. If the employer has no future liability for employer contributions to the plan, the board shall refund said amount directly to the employer: Provided, That the wages paid to the individual shall not be considered compensation for any purposes of this article. Earnings or interest shall not be returned, offset, or credited under any of the means used by the board for returning employee overpayments.

(e) Overpayments from the plan: If any error results in any member, retirant, beneficiary, entity or other individual receiving from the system more than he would have been entitled to receive had the error not occurred, the board, upon learning of the error, shall correct the error in a timely manner. If correction of the error occurs after annuity payments to a retirant or beneficiary have commenced, the board shall prospectively adjust the payment of the benefit to the correct amount. In addition, the member, retirant, beneficiary, entity or other person who received the overpayment from the plan shall repay the amount of any overpayment to the plan in any manner permitted by the board. If the member, retirant, beneficiary or other person who received the overpayment is deceased and an annuity or lump sum benefit is still payable, the amount of the remaining overpayment shall be offset against the benefit payment owed in a manner consistent with the board’s error correction policy. Interest shall not accumulate on any corrective payment made to the plan pursuant to this subsection.

(f) Underpayments from the plan: If any error results in any member, retirant, beneficiary, entity or other individual receiving from the plan less than he would have been entitled to receive had the error not occurred, the board, upon learning of the error, shall correct the error in a timely manner. If correction of the error occurs after annuity payments to a retirant or beneficiary have commenced, the board shall prospectively adjust the payment of the benefit to the correct amount.
In addition, the board shall pay the amount of such underpayment to the member, retirant, beneficiary or other individual in a lump sum. Interest shall not be paid on any corrective payment made by the plan pursuant to this subsection.

(g) Eligibility errors: If the board finds that an individual, employer, or both individual and employer formerly or currently participating in the plan is not eligible to participate, the board shall notify the individual and his or her employer of the determination, and terminate participation in the plan. Any erroneous payments to the retirement system shall be returned to the employer and individual in accordance with the methods described in subsections (c) and (d) of this section and any erroneous payments from the plan to such individual shall be returned to the plan in accordance with the methods described in subsection (e) of this section. Any erroneous service credited to the individual shall be removed. If the board determines that an individual or employer, or both, has not been participating in the plan, but was eligible to and required to be participating in the plan, the board shall as soon as practicable notify the individual and his or her employer of the determination, and the individual and his or her employer shall prospectively commence participation in the plan as soon as practicable. Service credit for service prior to the date on which the individual prospectively commences participation in the plan shall be granted only if the board receives the required employer and employee contributions for such service, in accordance with subsection (b) of this section, including interest.

§7-14D-9b. Federal law minimum required distributions.

The requirements of this section apply to any distribution of a member's or beneficiary's interest and take precedence over any inconsistent provisions of this plan. This section applies to plan years beginning after December 31, 1986. Notwithstanding anything in the plan to the contrary, the payment of benefits under this article shall be determined and made in accordance with section 401(a)(9) of the Internal Revenue Code and the federal regulations promulgated thereunder as applicable to governmental plans, including without limitation the minimum distribution incidental benefit (MDIB) requirement of section 401(a)(9)(G) and the regulations
thereunder, and the incidental benefit rule of section 1.401-1(b)(1)(i) of the regulations. Any term used in this article has the same meaning as when used in a comparable context in section 401(a)(9) of the Internal Revenue Code and the federal regulations promulgated thereunder unless a different meaning is clearly required by the context or definition in this article. The following provisions apply to payments of benefits required under this article:

(a) The payment of benefits under the plan to any member shall be distributed to him or her not later than the required beginning date, or be distributed to him or her commencing not later than the required beginning date, in accordance with regulations prescribed under section 401(a)(9) of the Internal Revenue Code, over the life of the member or over the lives of the member and his or her beneficiary or over a period not extending beyond the life expectancy of the member and his or her beneficiary: Provided, That the requirements of this section shall not be construed to grant a right to a form of benefit which is not otherwise available to a particular member under this retirement system: Provided, however, That if the member elects an annuity option which provides survivor benefits to a beneficiary who is not the member's spouse, and the annuity option elected would provide survivor payments that exceed the applicable percentage permitted by the MDIB regulations under section 401(a)(9) of the Internal Revenue Code, the member's annuity election shall be changed to the highest survivor annuity option offered under this plan which satisfies the MDIB regulations. Benefit payments under this section shall not be delayed pending, or contingent upon, receipt of an application for retirement from the member.

(b) If a member dies after distribution to him or her has commenced pursuant to this section but before his or her entire interest in the plan has been distributed, then the remaining portion of that interest shall be distributed at least as rapidly as under the method of distribution being used at the date of his or her death.

(c) If a member dies before distribution to him or her has commenced, then his or her entire interest in the retirement system is to be distributed by December 31 of the calendar year
containing the fifth anniversary of the member’s death, unless the provisions of subsection (d) of this section apply.

(d) If a member dies before distribution to him or her has commenced, and the member’s interest is eligible to be paid in the form of a survivor annuity to a designated beneficiary, distributions are to be made over the life of that beneficiary or over a period certain not greater than the life expectancy of that beneficiary, commencing on or before the following:

(1) December 31 of the calendar year immediately following the calendar year in which the member died; or

(2) If the member’s sole designated beneficiary is either the surviving spouse or a former spouse who, as an alternate payee under a Qualified Domestic Relations Order, is receiving 100 percent of the survivor benefit, distributions are to commence on or before the later of:

(A) December 31 of the calendar year in which the member would have attained age 70.5 (if born before July 1, 1949) or age 72 (if born after June 30, 1949); or

(B) December 31 of the calendar year immediately following the calendar year in which the member died.

(e) If a member dies before distribution to him or her has commenced and the survivor annuity provisions of subsection (d) of this section are not applicable, any designated beneficiary who is eligible to receive a distribution pursuant to the provisions of subsection (c) of this section may elect to have life expectancy treatment apply to the distribution for purposes of determining whether any portion of the distribution is an eligible rollover distribution: Provided, That any such election shall not delay the required distribution of the deceased member’s entire interest in the retirement system beyond December 31 of the calendar year containing the fifth anniversary of the member’s death as required by subsection (c) of this section: Provided, however, That the election is timely made in a form acceptable to the board on or before the following:

(1) December 31 of the calendar year immediately following the calendar year in which the member died; or
(2) If the member’s sole designated beneficiary is either the surviving spouse or a former
spouse who, as an alternate payee under a Qualified Domestic Relations Order, is receiving 100
percent of the survivor benefit, election of life expectancy treatment must be made on or before
the earlier of (A) or (B) below:

(A) The later of: (i) December 31 of the calendar year immediately following the calendar
year in which the member died; or (ii) December 31 of the calendar year in which the member
would have attained age 70.5 (if born before July 1, 1949) or age 72 (if born after June 30, 1949);
or

(B) October 31 of the calendar year containing the fifth anniversary of the member’s death.

A member is not entitled to credit for years of service for any time period during which he or she received disability payments under §8-22A-17 and §8-22A-18 of this code.

§8-22A-8a. Correction of errors; underpayments; overpayments.

(a) General rule. — Upon learning of errors, the board shall correct errors in the plan in a timely manner whether the individual, entity or board was at fault for the error with the intent of placing the affected individual, entity, and retirement board in the position each would have been in had the error not occurred.

(b) Underpayments to the plan. — Any error resulting in an underpayment to the plan may be corrected by the member or retirant remitting the required employee contribution or underpayment and the employer remitting the required employer contribution or underpayment. Interest shall accumulate in accordance with the legislative rule 162 CSR 7 concerning retirement board refund, reinstatement, retroactive service, loan and correction of error interest factors, and any accumulating interest owed on the employee and employer contributions or underpayments resulting from an employer error shall be the responsibility of the employer. The employer may remit total payment and the employee reimburse the employer through payroll deduction over a period equivalent to the time period during which the employer error occurred. If the correction of an error involving an underpayment to the plan will result in the plan correcting an erroneous underpayment from the plan, the correction of the underpayment from the plan shall be made only after the board receives full payment of all required employee and employer contributions or underpayments, including interest.

(c) Overpayments to the plan by the employer. — When mistaken or excess employer contributions, including any overpayments have been made to the retirement system by the employer, the board shall credit the employer with an amount equal to the overpayment, to be
offset against the employer's future liability for employer contributions to the system. If the
employer has no future liability for employer contributions to the plan, the board shall refund the
erroneous contributions directly to the employer. Earnings or interest shall not be returned, offset
or credited to the employer under any of the means used by the board for returning employer
overpayments to the plan.

(d) Overpayments to the plan by an employee. — When mistaken or excess employee
contributions or overpayments have been made to the plan, the board shall have sole authority
for determining the means of return, offset or credit to or for the benefit of the individual making
the mistaken or excess employee contribution of the amounts, and may use any means
authorized or permitted under the provisions of section 401(a), et seq. of the Internal Revenue
Code and guidance issued thereunder applicable to governmental plans. Alternatively, in its full
and complete discretion, the board may require the employer employing the individual to pay the
individual the amounts as wages, with the board crediting the employer with a corresponding
amount to offset against its future contributions to the plan. If the employer has no future liability
for employer contributions to the plan, the board shall refund said amount directly to the employer:
Provided, That the wages paid to the individual shall not be considered compensation for any
purposes of this article. Earnings or interest shall not be returned, offset, or credited under any of
the means used by the board for returning employee overpayments.

(e) Overpayments from the plan. — If any error results in any member, retirant, beneficiary,
entity or other individual receiving from the plan more than he would have been entitled to receive
had the error not occurred the board, upon learning of the error shall correct the error in a timely
manner. If correction of the error occurs after annuity payments to a retirant or beneficiary have
commenced, the board shall prospectively adjust the payment of the benefit to the correct amount.
In addition, the member, retirant, beneficiary, entity or other person who received the
overpayment from the plan shall repay the amount of any overpayment to the retirement system
in any manner permitted by the board. If the member, retirant, beneficiary, or other person who
received the overpayment is deceased and an annuity or lump sum benefit is still payable, the
amount of the remaining overpayment shall be offset against the benefit payment owed in a
manner consistent with the board’s error correction policy. Interest shall not accumulate on any
corrective payment made to the plan pursuant to this subsection.

(f) *Underpayments from the plan.* — If any error results in any member, retirant,
beneficiary, entity or other individual receiving from the plan less than he would have been entitled
to receive had the error not occurred, the board, upon learning of the error, shall correct the error
in a timely manner. If correction of the error occurs after annuity payments to a retirant or
beneficiary have commenced, the board shall prospectively adjust the payment of the benefit to
the correct amount. In addition, the board shall pay the amount of such underpayment to the
member, retirant, beneficiary or other individual in a lump sum. Interest shall not be paid on any
corrective payment made by the retirement system pursuant to this subsection.

(g) *Eligibility errors.* — If the board finds that an individual, employer, or both individual
and employer formerly or currently participating in the plan is not eligible to participate, the board
shall notify the individual and his or her employer of the determination, and terminate participation
in the plan. Any erroneous payments to the plan shall be returned to the employer and individual
in accordance with the methods described in subsections (c) and (d) of this section, and any
erroneous payments from the plan to such individual shall be returned to the plan in accordance
with the methods described in subsection (e) of this section. Any erroneous service credited to
the individual shall be removed. If the board determines that an individual or employer, or both,
has not been participating in the retirement plan, but was eligible to and required to be
participating in the plan, the board shall as soon as practicable notify the individual and his or her
employer of the determination, and the individual and his or her employer shall prospectively
commence participation in the plan as soon as practicable. Service credit for service prior to the
date on which the individual prospectively commences participation in the plan shall be granted
only if the board receives the required employer and employee contributions for such service, in accordance with subsection (b) of this section, including interest.

The requirements of this section apply to any distribution of a member's or beneficiary's interest and take precedence over any inconsistent provisions of this plan. This section applies to plan years beginning after December 31, 1986. Notwithstanding anything in the plan to the contrary, the payment of benefits under this article shall be determined and made in accordance with section 401(a)(9) of the Internal Revenue Code and the federal regulations promulgated thereunder as applicable to governmental plans, including without limitation the minimum distribution incidental benefit (MDIB) requirement of section 401(a)(9)(G) and the regulations thereunder, and the incidental benefit rule of section 1.401-1(b)(1)(i) of the regulations. The following provisions apply to payments of benefits required under this article:

(a) The payment of benefits under the plan to any member shall be distributed to him or her not later than the required beginning date, or be distributed to him or her commencing not later than the required beginning date, in accordance with regulations prescribed under section 401(a)(9) of the Internal Revenue Code, over the life of the member or over the lives of the member and his or her beneficiary or over a period not extending beyond the life expectancy of the member and his or her beneficiary: Provided, That the requirements of this section shall not be construed to grant a right to a form of benefit which is not otherwise available to a particular member under this retirement system: Provided, however, That if the member elects an annuity option which provides survivor benefits to a beneficiary who is not the member's spouse, and the annuity option elected would provide survivor payments that exceed the applicable percentage permitted by the MDIB regulations under section 401(a)(9) of the Internal Revenue Code, the
member’s annuity election shall be changed to the highest survivor annuity option offered under this plan which satisfies the MDIB regulations. Benefit payments under this section shall not be delayed pending, or contingent on, receipt of an application for retirement from the member.

(b) If a member dies after distribution to him or her has commenced pursuant to this section but before his or her entire interest in the plan has been distributed, then the remaining portion of that interest shall be distributed at least as rapidly as under the method of distribution being used at the date of his or her death.

(c) If a member dies before distribution to him or her has commenced, then his or her entire interest in the plan is to be distributed by December 31 of the calendar year containing the fifth anniversary of the member’s death, unless the provisions of subsection (d) of this section apply.

(d) If a member dies before distribution to him or her has commenced, and the member’s interest is eligible to be paid in the form of a survivor annuity to a designated beneficiary, distributions are to be made over the life of that beneficiary or over a period certain not greater than the life expectancy of that beneficiary, commencing on or before the following:

(1) December 31 of the calendar year immediately following the calendar year in which the member died; or

(2) If the member’s sole designated beneficiary is either the surviving spouse or a former spouse who, as an alternate payee under a Qualified Domestic Relations Order, is receiving 100 percent of the survivor benefit, distributions are to commence on or before the later of:

(B) December 31 of the calendar year immediately following the calendar year in which the member died.

(e) If a member dies before distribution to him or her has commenced and the survivor annuity provisions of subsection (d) of this section are not applicable, any designated beneficiary
who is eligible to receive a distribution pursuant to the provisions of subsection (c) of this section may elect to have life expectancy treatment apply to the distribution for purposes of determining whether any portion of the distribution is an eligible rollover distribution: Provided, That any such election shall not delay the required distribution of the deceased member's entire interest in the retirement system beyond December 31 of the calendar year containing the fifth anniversary of the member's death as required by subsection (c) of this section: Provided, however, That the election is timely made in a form acceptable to the board on or before the following:

1. December 31 of the calendar year immediately following the calendar year in which the member died; or

2. If the member's sole designated beneficiary is either the surviving spouse or a former spouse who, as an alternate payee under a Qualified Domestic Relations Order, is receiving 100 percent of the survivor benefit, election of life expectancy treatment must be made on or before the earlier of (A) or (B) below:

Alternatively, in its full and complete discretion, the board may require the employer employing the individual to pay the individual the amounts as wages, with the board crediting the employer with a corresponding amount to offset against its future contributions to the plan. If the employer has no future liability for employer contributions to the system, the board shall refund said amount directly to the employer: Provided, That the wages paid to the individual shall not be considered compensation for any purposes of this article. Earnings or interest shall not be returned, offset, or credited under any of the means used by the board for returning employee overpayments.

(e) Overpayments from the system. — If any error results in any member, retirant, beneficiary, entity or other individual receiving from the system more than he would have been entitled to receive had the error not occurred the board, upon learning of the error, shall correct the error in a timely manner. If correction of the error occurs after annuity payments to a retirant or beneficiary have commenced, the board shall prospectively adjust the payment of the benefit to the correct amount. In addition, the member, retirant, beneficiary, entity or other person who received the overpayment from the system shall repay the amount of any overpayment to the system in any manner permitted by the board. If the member, retirant, beneficiary or other person who received the overpayment is deceased and an annuity or lump sum benefit is still payable, the amount of the remaining overpayment shall be offset against the benefit payment owed in a

Any erroneous payments to the system shall be returned to the employer and individual in accordance with the methods described in subsections (c) and (d) of this section and any erroneous payments from the system to such individual shall be returned to the system in accordance with the methods described in subsection (e) of this section. Any erroneous service credited to the individual shall be removed. If the board determines that an individual or employer, or both, has not been participating in the system, but was eligible to and required to be participating in the system, the board shall as soon as practicable notify the individual and his or her employer of the determination, and the individual and his or her employer shall prospectively commence participation in the system as soon as practicable. §15-2A-6b. Federal law minimum required distributions.

The requirements of this section apply to any distribution of a member’s interest and take precedence over any inconsistent provisions of this retirement system. This section applies to plan years beginning after December 31, 1986. Notwithstanding anything in the retirement system to the contrary, the payment of benefits under this article shall be determined and made in accordance with section 401(a)(9) of the Internal Revenue Code and the federal regulations promulgated thereunder as applicable to governmental plans, including without limitation the minimum distribution incidental benefit (MDIB) requirement of section 401(a)(9)(G) and the regulations thereunder, and the incidental benefit rule of section 1.401-1(b)(1)(i) of the regulations. Any term used in this article has the same meaning as when used in a comparable context in section 401(a)(9) of the Internal Revenue Code and the federal regulations promulgated thereunder unless a different meaning is clearly required by the context or definition in this article.

The following provisions apply to payments of benefits required under this article:

(a) The payment of benefits under the retirement system to any member shall be distributed to him or her not later than the required beginning date, or be distributed to him or her commencing not later than the required beginning date, in accordance with regulations prescribed under section 401(a)(9) of the Internal Revenue Code, over the life of the member or over the lives of the member and his or her beneficiary or over a period not extending beyond the life expectancy of the member and his or her beneficiary: Provided, That the requirements of this section may not be construed to grant a right to a form of benefit which is not otherwise available to a particular member under this retirement system. Benefit payments under this section shall not be delayed pending, or contingent upon, receipt of an application for retirement from the member.
(b) If a member dies after distribution to him or her has commenced pursuant to this section but before his or her entire interest in the retirement system has been distributed, then the remaining portion of that interest shall be distributed at least as rapidly as under the method of distribution being used at the date of his or her death.

(c) If a member dies before distribution to him or her has commenced, then his or her entire interest in the retirement system is to be distributed by December 31 of the calendar year containing the fifth anniversary of the member’s death, unless the provisions of subsection (d) of this section apply.

(d) If a member dies before distribution to him or her has commenced, and the member’s interest is eligible to be paid in the form of a survivor annuity to a designated beneficiary, distributions are to be made over the life of that beneficiary or over a period certain not greater than the life expectancy of that beneficiary, commencing on or before the following:

(1) December 31 of the calendar year immediately following the calendar year in which the member died; or

(2) If the member’s sole designated beneficiary is either the surviving spouse or a former spouse who, as an alternate payee under a Qualified Domestic Relations Order, is receiving 100 percent of the survivor benefit, distributions are to commence on or before the later of:

(A) December 31 of the calendar year in which the member would have attained age 70.5 (if born before July 1, 1949) or age 72 (if born after June 30, 1949); or

(B) December 31 of the calendar year immediately following the calendar year in which the member died.

(e) If a member dies before distribution to him or her has commenced and the survivor annuity provisions of subsection (d) of this section are not applicable, any designated beneficiary who is eligible to receive a distribution pursuant to the provisions of subsection (c) of this section may elect to have life expectancy treatment apply to the distribution for purposes of determining whether any portion of the distribution is an eligible rollover distribution: Provided, That any such
election shall not delay the required distribution of the deceased member’s entire interest in the
retirement system beyond December 31 of the calendar year containing the fifth anniversary of
the member’s death as required by subsection (c) of this section: Provided, however, That the
election is timely made in a form acceptable to the board on or before the following:

(1) December 31 of the calendar year immediately following the calendar year in which
the member died; or

(2) If the member’s sole designated beneficiary is either the surviving spouse or a former
spouse who, as an alternate payee under a Qualified Domestic Relations Order, is receiving 100
percent of the survivor benefit, election of life expectancy treatment must be made on or before
the earlier of (A) or (B) below:

(A) The later of: (i) December 31 of the calendar year immediately following the calendar
year in which the member died; or (ii) December 31 of the calendar year in which the member
would have attained age 70.5 (if born before July 1, 1949) or age 72 (if born after June 30, 1949);
or

(B) October 31 of the calendar year containing the fifth anniversary of the member’s death.

§15-2A-23. Correction of errors; underpayments; overpayments.

(a) General rule. — Upon learning of any errors, the board shall correct errors in the
retirement system in a timely manner whether the individual, entity or board was at fault for the
error with the intent of placing the affected individual, entity and retirement board in the position
each would have been in had the error not occurred.

(b) Underpayments to the system. — Any error resulting in an underpayment to the
system, may be corrected by the member or retirant remitting the required employee contribution
or underpayment and the employer remitting the required employer contribution or underpayment.
Interest shall accumulate in accordance with the legislative rule 162 CSR 7 concerning retirement
board refund, reinstatement, retroactive service, loan and correction of error interest factors and
any accumulating interest owed on the employee and employer contributions or underpayments
resulting from an employer error shall be the responsibility of the employer. The employer may
remit total payment and the employee reimburse the employer through payroll deduction over a
period equivalent to the time period during which the employer error occurred. If the correction of
an error involving an underpayment to the system will result in the system correcting an erroneous
underpayment from the system, the correction of the underpayment from the system shall be
made only after the board receives full payment of all required employee and employer
contributions or underpayments, including interest.

(c) Overpayments to the system by an employer. — When mistaken or excess employer
contributions or other overpayments have been made to the system by an employer, the board
shall credit the employer with an amount equal to the overpayment, to be offset against the
employer’s future liability for employer contributions to the system. If the employer has no future
liability for employer contributions to the retirement system, the board shall refund the erroneous
contributions directly to the employer. Earnings or interest shall not be returned, offset or credited
to the employer under any of the means used by the board for returning employer overpayments
to the retirement system.

(d) Overpayments to the system by an employee. — When mistaken or excess employee
contributions or overpayments have been made to the system, the board shall have sole authority
for determining the means of return, offset or credit to or for the benefit of the individual making
the mistaken or excess employee contribution of the amounts, and may use any means
authorized or permitted under the provisions of section 401(a), et seq. of the Internal Revenue
Code and guidance issued thereunder applicable to governmental plans. Alternatively, in its full
and complete discretion, the board may require the employer employing the individual to pay the
individual the amounts as wages, with the board crediting the employer with a corresponding
amount to offset against its future contributions to the plan. If the employer has no future liability
for employer contributions to the retirement system, the board shall refund said amount directly
to the employer: Provided, That the wages paid to the individual shall not be considered
compensation for any purposes of this article. Earnings or interest shall not be returned, offset, or credited under any of the means used by the board for returning employee overpayments.

(e) Overpayments from the system. — If any error results in any member, retirant, beneficiary, entity or other individual receiving from the system more than he would have been entitled to receive had the error not occurred, the board, upon learning of the error, shall correct the error in a timely manner. If correction of the error occurs after annuity payments to a retirant or beneficiary have commenced, the board shall prospectively adjust the payment of the benefit to the correct amount. In addition, the member, retirant, beneficiary, entity or other person who received the overpayment from the system shall repay the amount of any overpayment to the system in any manner permitted by the board. If the member, retirant, beneficiary or other person who received the overpayment is deceased and an annuity or lump sum benefit is still payable, the amount of the remaining overpayment shall be offset against the benefit payment owed in a manner consistent with the board's error correction policy. Interest shall not accumulate on any corrective payment made to the system pursuant to this subsection.

(f) Underpayments from the system. — If any error results in any member, retirant, beneficiary, entity or other individual receiving from the system less than he would have been entitled to receive had the error not occurred, the board, upon learning of the error, shall correct the error in a timely manner. If correction of the error occurs after annuity payments to a retirant or beneficiary have commenced, the board shall prospectively adjust the payment of the benefit to the correct amount. In addition, the board shall pay the amount of such underpayment to the member, retirant, beneficiary or other individual in a lump sum. Interest shall not be paid on any corrective payment made by the system pursuant to this subsection.

(g) Eligibility errors. — If the board finds that an individual, employer, or both individual and employer currently or formerly participating in the system is not eligible to participate, the board shall notify the individual and his or her employer of the determination and terminate participation in the system. Any erroneous payments to the system shall be returned to the
employer and individual in accordance with the methods described in subsections (c) and (d) of this section and any erroneous payments from the system to such individual shall be returned to the system in accordance with the methods described in subsection (e) of this section. Any erroneous service credited to the individual shall be removed. If the board determines that an individual or employer, or both, has not been participating in the system, but was eligible to and required to be participating in the system, the board shall as soon as practicable notify the individual and his or her employer of the determination, and the individual and his or her employer shall prospectively commence participation in the system as soon as practicable. Service credit for service prior to the date on which the individual prospectively commences participation in the system shall be granted only if the board receives the required employer and employee contributions for such service, in accordance with subsection (b) in this section, including interest.

§16-5V-8a. Correction of errors; underpayments; overpayments.

(a) General rule: Upon learning of any errors, the board shall correct errors in the

underpayment and the participating public employer remitting the required employer contribution
or underpayment. Interest shall accumulate in accordance with the legislative rule 162 CSR 7
concerning retirement board refund, reinstatement, retroactive service, loan and correction of
error interest factors and any accumulating interest owed on the employee and employer
contributions or underpayments resulting from an employer error shall be the responsibility of the
participating public employer. The participating public employer may remit total payment and the
employee reimburse the participating public employer through payroll deduction over a period
equivalent to the time period during which the employer error occurred. If the correction of an
error involving an underpayment to the retirement system will result in the plan paying the retirant
an additional amount, this additional payment shall be made only after the board receives full
payment of all required employee and employer contributions or underpayments, including
interest.
(c) Overpayments to the plan by an employer: When mistaken or excess employer contributions or other employer overpayments have been made to the plan, the board shall credit the employer with an amount equal to the overpayment, to be offset against the employer’s future liability for employer contributions to the plan. If the employer has no future liability for employer contributions to the plan, the board shall refund the erroneous contributions directly to the employer. Earnings or interest shall not be returned, offset or credited to the employer under any of the means used by the board for returning employer overpayments to the retirement system.

(d) Overpayments to the plan by an employee: When mistaken or excess employee contributions or overpayments have been made to the plan, the board shall have sole authority for determining the means of return, offset or credit to or for the benefit of the individual making the mistaken or excess employee contribution of the amounts, and may use any means authorized or permitted under the provisions of section 401(a), et seq. of the Internal Revenue Code and guidance issued thereunder applicable to governmental plans. Alternatively, in its full and complete discretion, the board may require the participating public employer employing the individual to pay the individual the amounts as wages, with the board crediting the participating public employer with a corresponding amount to offset against its future contributions to the plan. If the employer has no future liability for employer contributions to the plan, the board shall refund said amount directly to the employer: Provided, That the wages paid to the individual shall not be considered compensation for any purposes of this article. Earnings or interest shall not be returned, offset, or credited under any of the means used by the board for returning employee overpayments.

(e) Overpayments from the plan: If any error results in any member, retirant, beneficiary, entity or other individual receiving from the system more than he would have been entitled to receive had the error not occurred the board upon learning of the error shall correct the error in a timely manner. If correction of the error occurs after annuity payments to a retirant or beneficiary have commenced, the board shall prospectively adjust the payment of the benefit to the correct
amount. In addition, the member, retirant, beneficiary, entity or other person who received the
overpayment from the plan shall repay the amount of any overpayment to the plan in any manner
permitted by the board. If the member, retirant, beneficiary or other person who received the
overpayment is deceased and an annuity or lump sum benefit is still payable, the amount of the
remaining overpayment shall be offset against the benefit payment owed in a manner consistent
with the board’s error correction policy. Interest shall not accumulate on any corrective payment
made to the plan pursuant to this subsection.

(f) Underpayments from the retirement system: If any error results in any member, retirant,
beneficiary, entity or other individual receiving from the plan less than he would have been entitled
to receive had the error not occurred, the board, upon learning of the error, shall correct the error
in a timely manner. If correction of the error occurs after annuity payments to a retirant or
beneficiary have commenced, the board shall prospectively adjust the payment of the benefit to
the correct amount. In addition, the board shall pay the amount of such underpayment to the
member, retirant, beneficiary or other individual in a lump sum. Interest shall not be paid on any

(g) Eligibility errors: If the board finds that an individual, employer, or both individual and
employer, participating in the plan is not eligible to participate, the board shall notify the individual
and his or her employer of the determination and terminate participation in the plan. Any
erroneous payments to the plan shall be returned to the employer and individual in accordance
with the methods described in subsections (c) and (d) of this section and any erroneous payments

described in subsection (e) of this section. Any erroneous service credited to the individual shall
be removed. If the board determines that an individual or employer, or both, has not been
participating in the plan, but was eligible to and required to be participating in the plan, the board
shall as soon as practicable notify the individual and his or her employer of the determination, and
the individual and his or her employer shall prospectively commence participation in the plan as
soon as practicable. Service credit for service prior to the date on which the individual prospectively commences participation in the plan shall be granted only if the board receives the required employer and employee contributions for such service, in accordance with subsection (b) of this section, including interest.

The requirements of this section apply to any distribution of a member’s or beneficiary’s interest and take precedence over any inconsistent provisions of this plan. This section applies to plan years beginning after December 31, 1986. Notwithstanding anything in the plan to the contrary, the payment of benefits under this article shall be determined and made in accordance with section 401(a)(9) of the Internal Revenue Code and federal regulations promulgated thereunder as applicable to governmental plans, including without limitation the minimum distribution incidental benefit (MDIB) requirement of section 401(a)(9)(G) and the regulations thereunder, and the incidental benefit rule of section 1.401-1(b)(1)(i) of the regulations. Any term used in this article has the same meaning as when used in a comparable context in section 401(a)(9) of the Internal Revenue Code and the federal regulations promulgated thereunder unless a different meaning is clearly required by the context or definition in this article. The following provisions apply to payments of benefits required under this article:

(a) The payment of benefits under the plan to any member shall be distributed to him or her not later than the required beginning date, or be distributed to him or her commencing not later than the required beginning date, in accordance with regulations prescribed under section 401(a)(9) of the Internal Revenue Code, over the life of the member or over the lives of the member and his or her beneficiary or over a period not extending beyond the life expectancy of the member and his or her beneficiary: Provided, That the requirements of this section may not be construed to grant a right to a form of benefit which is not otherwise available to a particular member under this retirement system: Provided, however, That if the member elects an annuity option which provides survivor benefits to a beneficiary who is not the member’s spouse, and the
Enr CS for HB 4540

annuity option elected would provide survivor payments that exceed the applicable percentage permitted by the MDIB regulations under section 401(a)(9) of the Internal Revenue Code, the member’s annuity election shall be changed to the highest survivor annuity option offered under this plan which satisfies the MDIB regulations. Benefit payments under this section shall not be delayed pending, or contingent upon, receipt of an application for retirement from the member.

(b) If a member dies after distribution to him or her has commenced pursuant to this section but before his or her entire interest in the plan has been distributed, then the remaining portion of that interest shall be distributed at least as rapidly as under the method of distribution being used at the date of his or her death.

(c) If a member dies before distribution to him or her has commenced, then his or her entire interest in the plan is to be distributed by December 31 of the calendar year containing the fifth anniversary of the member’s death, unless the provisions of subsection (d) of this section apply.

(d) If a member dies before distribution to him or her has commenced, and the member’s interest is eligible to be paid in the form of a survivor annuity to a designated beneficiary, distributions are to be made over the life of that beneficiary or over a period certain not greater than the life expectancy of that beneficiary, commencing on or before the following:

(1) December 31 of the calendar year immediately following the calendar year in which the member died; or

(2) If the member’s sole designated beneficiary is either the surviving spouse or a former spouse who, as an alternate payee under a Qualified Domestic Relations Order, is receiving 100 percent of the survivor benefit, distributions are to commence on or before the later of:

(A) December 31 of the calendar year in which the member would have attained age 70.5 (if born before July 1, 1949) or age 72 (if born after June 30, 1949); or

(B) December 31 of the calendar year immediately following the calendar year in which the member died.
(e) If a member dies before distribution to him or her has commenced and the survivor annuity provisions of subsection (d) of this section are not applicable, any designated beneficiary who is eligible to receive a distribution pursuant to the provisions of subsection (c) of this section may elect to have life expectancy treatment apply to the distribution for purposes of determining whether any portion of the distribution is an eligible rollover distribution: Provided, That any such election shall not delay the required distribution of the deceased member's entire interest in the retirement system beyond December 31 of the calendar year containing the fifth anniversary of the member's death as required by subsection (c) of this section: Provided, however, That the election is timely made in a form acceptable to the board on or before the following:

(1) December 31 of the calendar year immediately following the calendar year in which the member died; or

(2) If the member's sole designated beneficiary is either the surviving spouse or a former spouse who, as an alternate payee under a Qualified Domestic Relations Order, is 100 percent of the survivor benefit, election of life expectancy treatment must be made on or before the earlier of (A) or (B) below:

error with the intent of placing the affected individual, entity and retirement board in the position
each would have been in had the error not occurred.

underpayments, including interest.

(c) Overpayments to the retirement system by an employer. — When mistaken or excess

use any means authorized or permitted under the provisions of section 401(a), et seq. of the
Internal Revenue Code and guidance issued thereunder applicable to governmental plans.
Alternatively, in its full and complete discretion, the board may require the employer employing
the individual to pay the individual the amounts as wages, with the retirement board crediting the participating public employer with a corresponding amount to offset against its future contributions to the plan. If the employer has no future liability for employer contributions to the retirement system, the retirement board shall refund said amount directly to the employer: Provided, That the wages paid to the individual shall not be considered compensation for any purposes of this article. Earnings or interest shall not be returned, offset, or credited under any of the means used by the retirement board for returning member overpayments.

(e) Overpayments from the retirement system. — If any error results in any member, retirant, beneficiary, entity or other individual receiving from the system more than he would have been entitled to receive had the error not occurred the board, upon learning of the error, shall correct the error in a timely manner. If correction of the error occurs after annuity payments to a retirant or beneficiary have commenced, the board shall prospectively adjust the payment of the benefit to the correct amount. In addition, the member, retirant, beneficiary, entity or other person who received the overpayment from the retirement system shall repay the amount of any overpayment to the retirement system in any manner permitted by the board. If the member, retirant, beneficiary or other person who received the overpayment is deceased and an annuity or lump sum benefit is still payable, the amount of the remaining overpayment shall be offset against the benefit payment owed in a manner consistent with the retirement board’s error correction policy. Interest shall not accumulate on any corrective payment made to the retirement system pursuant to this subsection.

(f) Underpayments from the retirement system. — If any error results in any member, retirant, beneficiary, entity or other individual receiving from the retirement system less than he would have been entitled to receive had the error not occurred, the board, upon learning of the error, shall correct the error in a timely manner. If correction of the error occurs after annuity payments to a retirant or beneficiary have commenced, the board shall prospectively adjust the payment of the benefit to the correct amount. In addition, the board shall pay the amount of such
underpayment to the member, retiree, beneficiary or other individual in a lump sum. Interest shall
not be paid on any corrective payment made by the retirement system pursuant to this subsection.

(g) Eligibility errors. — If the board finds that an individual, employer, or both individual and employer currently or formerly participating in the retirement system is not eligible to participate, the board shall notify the individual and his or her employer of the determination, and terminate participation in the retirement system. Any erroneous payments to the retirement system shall be returned to the employer and individual in accordance with the methods described in subsections (c) and (d) of this section and any erroneous payments from the retirement system to such individual shall be returned to the retirement system in accordance with the methods described in subsection (e) of this section. 19 expectancy of the member and his or her beneficiary: Provided, That the requirements of this
20 section may not be construed to grant a right to a form of benefit which is not otherwise available
21 to a particular member under this retirement system: Provided, however, That if the member
22 elects an annuity option which provides survivor benefits to a beneficiary who is not the member’s
23 spouse, and the annuity option elected would provide survivor payments that exceed the
24 applicable percentage permitted by the MDIB regulations under section 401(a)(9) of the Internal

(B) December 31 of the calendar year immediately following the calendar year in which the member died.

(e) If a member dies before distribution to him or her has commenced and the survivor annuity provisions of subsection (d) of this section are not applicable, any designated beneficiary who is eligible to receive a distribution pursuant to the provisions of subsection (c) of this section may elect to have life expectancy treatment apply to the distribution for purposes of determining whether any portion of the distribution is an eligible rollover distribution: Provided, That any such election shall not delay the required distribution of the deceased member's entire interest in the retirement system beyond December 31 of the calendar year containing the fifth anniversary of the member's death as required by subsection (c) of this section: Provided, however, That the election is timely made in a form acceptable to the board on or before the following:

This section applies to plan years beginning after December 31, 1986. Notwithstanding anything in this system to the contrary, the payment of benefits under this article shall be determined and made in accordance with section 401(a)(9) of the Internal Revenue Code and the federal regulations promulgated thereunder as applicable to governmental plans, including without limitation the minimum distribution incidental benefit (MDIB) requirement of section 401(a)(9)(G) and the regulations thereunder, and the incidental benefit rule of section 1.401-1(b)(1)(i) of the regulations. Any term used in this article has the same meaning as when used in a comparable context in section 401(a)(9) of the Internal Revenue Code and the federal regulations promulgated thereunder unless a different meaning is clearly required by the context or definition in this article.

The following provisions apply to payments of benefits required under this article:

(a) The payment of benefits under the defined contribution system to any member shall be distributed to him or her not later than the required beginning date, or be distributed to him or her commencing not later than the required beginning date, in accordance with regulations prescribed under section 401(a)(9) of the Internal Revenue Code, over the life of the member or over the lives of the member and his or her beneficiary or over a period not extending beyond the life expectancy of the member and his or her beneficiary (subject to the provisions of subsection (g) of this section: Provided, That the requirements of this section may not be construed to grant a right to a form of benefit which is not otherwise available to a particular member under this retirement system: Provided, however, That if the member elects an annuity option which provides survivor benefits to a beneficiary who is not the member’s spouse, and the annuity option elected would provide survivor payments that exceed the applicable percentage permitted by the MDIB regulations under section 401(a)(9) of the Internal Revenue Code, the member’s annuity election shall be changed to the highest survivor annuity option offered under this retirement system which
satisfies the MDIB regulations. Benefit payments under this section shall not be delayed pending, or contingent upon, receipt of an application for retirement from the member.

(b) If a member dies after distribution to him or her has commenced pursuant to this section but before his or her entire interest in the system has been distributed, then the remaining portion of that interest shall be distributed at least as rapidly as under the method of distribution being used at the date of his or her death (subject to the provisions of subsection (g) of this section).

(c) If a member dies before distribution to him or her has commenced, then his or her entire interest in the retirement system is to be distributed by December 31 of the calendar year containing the fifth anniversary of the member’s death, unless the provisions of subsection (d) of this section apply.

(d) If a member dies before distribution to him or her has commenced, and the member’s interest is eligible to be paid in the form of a survivor annuity to a designated beneficiary, distributions are to be made over the life of that beneficiary or over a period certain not greater than the life expectancy of that beneficiary (subject to the provisions of subsection (g) of this section), commencing on or before the following:

1. December 31 of the calendar year immediately following the calendar year in which the member died; or

2. If the member’s sole designated beneficiary is either the surviving spouse or a former spouse who, as an alternate payee under a Qualified Domestic Relations Order, is receiving 100 percent of the survivor benefit, distributions are to commence on or before the later of:

   B. December 31 of the calendar year immediately following the calendar year in which the member died.
(e) If a member dies before distribution to him or her has commenced and the survivor annuity provisions of subsection (d) of this section are not applicable, any designated beneficiary who is eligible to receive a distribution pursuant to the provisions of subsection (c) of this section may elect to have life expectancy treatment apply to the distribution for purposes of determining whether any portion of the distribution is an eligible rollover distribution (subject to the provisions of subsection (g) of this section, if applicable): Provided, That any such election shall not delay the required distribution of the deceased member's entire interest in the retirement system beyond December 31 of the calendar year containing the fifth anniversary of the member's death as required by subsection (c) of this section: Provided, however, That the election is timely made in a form acceptable to the board on or before the following:

(1) December 31 of the calendar year immediately following the calendar year in which the member died; or

(2) If the member's sole designated beneficiary is either the surviving spouse or a former spouse who, as an alternate payee under a Qualified Domestic Relations Order, is receiving 100 percent of the survivor benefit, election of life expectancy treatment must be made on or before the earlier of (A) or (B) below:

(A) The later of: (i) December 31 of the calendar year immediately following the calendar year in which the member died; or (ii) December 31 of the calendar year in which the member would have attained age 70.5 (if born before July 1, 1949) or age 72 (if born after June 30, 1949);

or

(B) October 31 of the calendar year containing the fifth anniversary of the member's death.

(f) For purposes of this section, any amount paid to a child of a member will be treated as if it had been paid to the surviving spouse of the member if the remaining amount becomes payable to the surviving spouse when the child reaches the age of majority.

(g) The provisions of this subsection will apply to distributions with respect to members who die on or after January 1, 2022, and to the designated beneficiaries of members who die
prior to January 1, 2022, as described in subdivision (2) of this subsection. This subsection will
not apply to qualified annuities described in SECURE Act section 401(b)(4)(B)[P.L. 116-94, Div.

the member’s death.

(2) Beneficiary Death. — If an Eligible Designated Beneficiary dies before receiving
distribution of the beneficiary’s entire interest in the member’s account, the system will distribute
the remaining interest in full no later than December 31 of the 10th year following the year of the
Eligible Designated Beneficiary’s death. Similarly, if a member died before January 1, 2022, the
limitations of this subsection (g) shall apply to distributions to the beneficiary of the member’s

Code, for a reasonably lengthy period, or indefinitely. Certain trusts may be treated as Eligible
Designated Beneficiaries pursuant to sections 401(a)(9)(H)(iv) and (v) of the Internal Revenue
Code. When a child of the member reaches the age of majority, the system will distribute the
child’s account in full no later than 10 years after that date.
§18-7B-21. Correction of errors; underpayments; overpayments.

(a) General rule. — Upon learning of any errors, the board shall correct errors in the retirement system in a timely manner whether the individual, entity or board was at fault for the error with the intent of placing the affected individual, entity and retirement board in the position each would have been in had the error not occurred.

(b) Underpayments to the system. — Any error resulting in an underpayment to the system, may be corrected by the member or retirant remitting the required employee contribution or underpayment and the existing employer remitting the required employer contribution or underpayment. Interest shall accumulate in accordance with the legislative rule 162 CSR 7 concerning retirement board Refund, Reinstatement, Retroactive Service, Loan and Correction of Error Interest Factors and any accumulating interest owed on the employee and employer contributions or underpayments resulting from an employer error shall be the responsibility of the participating public employer. The participating public employer may remit total payment and the employee reimburse the participating public employer through payroll deduction over a period equivalent to the time period during which the employer error occurred. If the correction of an error involving an underpayment to the system will result in the system paying the retirant an additional amount, this additional payment shall be made only after the board receives full payment of all required employee and employer contributions or underpayments, including interest.

(c) Overpayments to the system by an employer. — When mistaken or excess employer contributions or other employer overpayments have been made to the system, the board shall credit the employer with an amount computed by the board, to be offset against the employer’s future liability for employer contributions to the system. If the employer has no future liability for employer contributions to the retirement system, the board shall refund the erroneous contributions directly to the employer.
(d) Overpayments to the retirement system by an employee. — When mistaken or excess employee contributions or overpayments, have been made to the retirement system, the board shall have sole authority for determining the means of return, offset or credit to or for the benefit of the individual making the mistaken or excess employee contribution of the amounts, and may use any means authorized or permitted under the provisions of section 401(a), et seq. of the Internal Revenue Code and guidance issued thereunder applicable to governmental plans. Alternatively, in its full and complete discretion, the board may require the existing employer employing the individual to pay the individual the amounts as wages, with the board crediting the participating public employer with a corresponding amount to offset against its future contributions to the plan. If the employer has no future liability for employer contributions to the retirement system, the board shall refund said amount directly to the employer: Provided, That the wages paid to the individual are not considered compensation for any purposes of this article.

(e) Overpayments from the retirement system. — If any error results in any member, retirant beneficiary, entity or other individual receiving from the system more than he would have been entitled to receive had the error not occurred the board upon learning of the error shall correct the error in a timely manner. If correction of the error occurs after annuity payments to a retirant or beneficiary have commenced, the board shall prospectively adjust the payment of the benefit to the correct amount. In addition, the member, retirant, beneficiary, entity or other person who received the overpayment from the retirement system shall repay the amount of any overpayment to the retirement system in any manner permitted by the board. If the member, retirant, beneficiary or other person who received the overpayment is deceased and an annuity or lump sum benefit is still payable, the amount of the overpayment shall be offset against the benefit payment owed in a manner consistent with the board’s error correction policy. Interest shall not accumulate on any corrective payment made to the retirement system pursuant to this subsection.
(f) *Underpayments from the retirement system.* — If any error results in any member, retirant, beneficiary, entity or other individual receiving from the retirement system less than he would have been entitled to receive had the error not occurred, the board, upon learning of the error, shall correct the error in a timely manner. If correction of the error occurs after annuity payments to a retirant or beneficiary have commenced, the board shall prospectively adjust the payment of the benefit to the correct amount. In addition, the board shall pay the amount of such underpayment to the member, retirant, beneficiary or other individual in a lump sum. Interest shall not be paid on any corrective payment made by the retirement system pursuant to this subsection.

(g) *Eligibility errors.* — If the board finds that an individual, employer, or both individual and employer currently or formerly participating in the retirement system is not eligible to participate, the board shall notify the individual and his or her employer of the determination, and terminate participation in the retirement system. Any erroneous payments to the retirement system shall be returned to the employer and individual in accordance with the methods described in subsections (c) and (d) of this section and any erroneous payments from the retirement system to such individual shall be returned to the retirement system in accordance with the methods described in subsection (e) of this section. Any erroneous service credited to the individual shall be removed. Service credit for service prior to the date on which the individual prospectively commences participation in the retirement system shall be granted only if the board receives the required employer and employee contributions for such service, in accordance with subsection (b) of this section, including interest.

§20-18-9. Correction of errors; underpayments; overpayments.

(a) General rule. — Upon learning of errors, the board shall correct errors in the retirement plan in a timely manner whether the individual, division or board was at fault for the error with the
intent of placing the affected individual, division and board in the position each would have been
in had the error not occurred.

(b) Underpayments to the plan. — Any error resulting in an underpayment to the plan may
be corrected by the member or retirant remitting the required employee contribution or
underpayment and the division remitting the required employer contribution or underpayment.
Interest shall accumulate in accordance with the legislative rule 162 CSR 7 concerning retirement
board refund, reinstatement, retroactive service, loan and correction of error interest factors and
any accumulating interest owed on the employee and employer contributions or underpayments
resulting from an employer error is the responsibility of the division. The division may remit total
payment and the employee reimburse the division through payroll deduction over a period
equivalent to the time period during which the employer error occurred. If the correction of an
error involving an underpayment to the plan will result in the plan paying a retirant an additional
amount, this additional payment may be made only after the board receives full payment of all
required employee and employer contributions or underpayments, including interest.

(c) Overpayments to the plan by the division. — When mistaken or excess employer
contributions or other employer overpayments have been made to the plan, the board shall credit
the division with an amount equal to the overpayment, to be offset against the employer’s future
liability for employer contributions to the plan. If the division has no future liability for employer
contributions to the retirement system, the board shall refund the erroneous contributions directly
to the division. Earnings or interest may not be returned, offset or credited to the division under
any of the means used by the board for returning employer overpayments made to the plan.

(d) Overpayments to the plan by an employee. — When mistaken or excess employee
contributions or overpayments have been made to the retirement system, the board has sole
authority for determining the means of return, offset or credit to or for the benefit of the individual
making the mistaken or excess employee contribution of the amounts, and may use any means
authorized or permitted under the provisions of section 401(a), et seq. of the Internal Revenue
Code and guidance issued thereunder applicable to governmental plans. Alternatively, the board may require the division to pay the individual the amounts as wages, with the board crediting the division with a corresponding amount to offset against its future contributions to the plan. If the division has no future liability for employer contributions to the plan, the board shall refund said amount directly to the division: Provided, That the wages paid to the individual shall not be considered compensation for any purposes of this article. Earnings or interest shall not be returned, offset, or credited under any of the means used by the board for returning employee overpayments.

(e) Overpayments from the plan. — If any error results in any member, retirant, beneficiary, the division or other individual receiving from the system more than he or she would have been entitled to receive had the error not occurred the board, upon learning of the error, shall correct the error in a timely manner. If correction of the error occurs after annuity payments to a retirant or beneficiary have commenced, the board shall prospectively adjust the payment of the benefit to the correct amount. In addition, the member, retirant, beneficiary, the division or other person who received the overpayment from the plan shall repay the amount of any overpayment to the plan in any manner permitted by the board. If the member, retirant, beneficiary or other person who received the overpayment is deceased and an annuity or lump sum benefit is still payable, the amount of the overpayment shall be offset against the benefit payment owed in a manner consistent with the board’s error correction policy. Interest shall not accumulate on any corrective payment made to the plan pursuant to this subsection.

(f) Underpayments from the plan. — If any error results in any member, retirant, beneficiary, the division or other individual receiving from the plan less than he or she would have been entitled to receive had the error not occurred, the board, upon learning of the error, shall correct the error in a timely manner. If correction of the error occurs after annuity payments to a retirant or beneficiary have commenced, the board shall prospectively adjust the payment of the benefit to the correct amount. In addition, the board shall pay the amount of such underpayment
to the member, retirant, beneficiary or other individual in a lump sum. Interest shall not be paid on any corrective payment made by the plan pursuant to this subsection.

(g) Eligibility errors. — If the board finds that an individual is not eligible to participate, the board shall notify the individual and the division of the determination and terminate his or her participation in the plan. Any erroneous payments to the retirement system shall be returned to the division and individual in accordance with the methods described in subsections (c) and (d) of this section and any erroneous payments from the plan to such individual shall be returned to the plan in accordance with the methods described in subsection (e) of this section. Any erroneous service credited to the individual shall be removed. If the board determines that an individual has not been participating in the plan, but was eligible to and required to be participating in the plan, the board shall as soon as practicable notify the individual and the division of the determination, and the individual shall prospectively commence participation in the plan as soon as practicable. Service credit for service prior to the date on which the individual prospectively commences participation in the plan shall be granted only if the board receives the required employer and employee contributions for such service, in accordance with subsection (b) of this section, including interest.

(h) Correction of errors occurring prior to transfer from Public Employee Retirement System. — If any errors requiring correction occurred prior to establishment of the plan created pursuant to this article or prior to the transfer of funds from the Public Employee Retirement System, into the plan, or both, the employer and member contributions, if any, required to be calculated in order to effect correction shall be based on the rates in effect for the retirement system under which such employer or member contributions would have been made had the error not occurred. For purposes of this subsection, “retirement system” means either the Public Employees Retirement System or the plan. The board shall have full discretion when applying this subsection (h), consistent with the general principles of subsection (a) of this section. The
intent of any correction is to place the affected individual, division and board in the position in
which each would have been had the error not occurred.

The requirements of this section apply to any distribution of a member’s or beneficiary’s
interest and take precedence over any inconsistent provisions of this plan. This section applies to
plan years beginning after December 31, 1986. Notwithstanding anything in the plan to the
contrary, the payment of benefits under this article shall be determined and made in accordance
with section 401(a)(9) of the Internal Revenue Code and the federal regulations promulgated
thereunder as applicable to governmental plans, including without limitation the minimum
distribution incidental benefit (MDIB) requirement of section 401(a)(9)(G) and the regulations
thereunder, and the incidental benefit rule of section 1.401-1(b)(1)(i) of the regulations. Any term
used in this article has the same meaning as when used in a comparable context in section
401(a)(9) of the Internal Revenue Code and the federal regulations promulgated thereunder
unless a different meaning is clearly required by the context or definition in this article. The
following provisions apply to payments of benefits required under this article:

(a) The payment of benefits under the plan to any member shall be distributed to him or
her not later than the required beginning date, or be distributed to him or her commencing not
later than the required beginning date, in accordance with regulations prescribed under section
401(a)(9) of the Internal Revenue Code, over the life of the member or over the lives of the
member and his or her beneficiary or over a period not extending beyond the life expectancy of
the member and his or her beneficiary: Provided, That the requirements of this section may not
be construed to grant a right to a form of benefit which is not otherwise available to a particular
member under this retirement system: Provided, however, That if the member elects an annuity
option which provides survivor benefits to a beneficiary who is not the member’s spouse, and the
annuity option elected would provide survivor payments that exceed the applicable percentage
permitted by the MDIB regulations under section 401(a)(9) of the Internal Revenue Code, the
member’s annuity election shall be changed to the highest survivor annuity option offered under this retirement plan which satisfies the MDIB regulations. Benefit payments under this section may not be delayed pending, or contingent upon, receipt of an application for retirement from the member.

(b) If a member dies after distribution to him or her has commenced pursuant to this section but before his or her entire interest in the plan has been distributed, then the remaining portion of that interest shall be distributed at least as rapidly as under the method of distribution being used at the date of his or her death.

(c) If a member dies before distribution to him or her has commenced, then his or her entire interest in the retirement system is to be distributed by December 31 of the calendar year containing the fifth anniversary of the member’s death, unless the provisions of subsection (d) of this section apply.

(d) If a member dies before distribution to him or her has commenced, and the member’s interest is eligible to be paid in the form of a survivor annuity to a designated beneficiary, distributions are to be made over the life of that beneficiary or over a period certain not greater than the life expectancy of that beneficiary, commencing on or before the following:

(1) December 31 of the calendar year immediately following the calendar year in which the member died; or

(2) If the member’s sole designated beneficiary is either the surviving spouse or a former spouse who, as an alternate payee under a Qualified Domestic Relations Order, is receiving 100 percent of the survivor benefit, distributions are to commence on or before the later of:

(A) December 31 of the calendar year in which the member would have attained age 72; or

(B) December 31 of the calendar year immediately following the calendar year in which the member died.
(e) If a member dies before distribution to him or her has commenced and the survivor annuity provisions of subsection (d) of this section are not applicable, any designated beneficiary who is eligible to receive a distribution pursuant to the provisions of subsection (c) of this section may elect to have life expectancy treatment apply to the distribution for purposes of determining whether any portion of the distribution is an eligible rollover distribution: Provided, That any such election may not delay the required distribution of the deceased member's entire interest in the retirement system beyond December 31 of the calendar year containing the fifth anniversary of the member's death as required by subsection (c) of this section: Provided, however, That the election is timely made in a form acceptable to the board on or before the following:

(1) December 31 of the calendar year immediately following the calendar year in which the member died; or

(2) If the member's sole designated beneficiary is either the surviving spouse or a former spouse who, as an alternate payee under a Qualified Domestic Relations Order, is receiving 100 percent of the survivor benefit, election of life expectancy treatment must be made on or before the earlier of (A) or (B) below:

(A) The later of: (i) December 31 of the calendar year immediately following the calendar year in which the member died; or (ii) December 31 of the calendar year in which the member would have attained age 72; or

(B) October 31 of the calendar year containing the fifth anniversary of the member's death.

§51-9-12b. Federal minimum required distributions.

The requirements of this section apply to any distribution of a member's or beneficiaries' interest and take precedence over any inconsistent provisions of this retirement system. This section applies to plan years beginning after December 31, 1986. Notwithstanding anything in the retirement system to the contrary, the payment of benefits under this article shall be determined and made in accordance with section 401(a)(9) of the Internal Revenue Code and the federal regulations promulgated thereunder as applicable to governmental plans, including without limitation the minimum distribution incidental benefit (MDIB) requirement of section 401(a)(9)(G) and the regulations thereunder, and the incidental benefit rule of section 1.401-1(b)(1)(i) of the regulations. Benefit payments under this section shall not be delayed pending, or contingent upon, receipt of an application for retirement from the member.

(b) If a member dies after distribution to him or her has commenced pursuant to this section but before his or her entire interest in the retirement system has been distributed, then the remaining portion of that interest shall be distributed at least as rapidly as under the method of distribution being used at the date of his or her death.

(c) If a member dies before distribution to him or her has commenced, then his or her entire interest in the retirement system is to be distributed by December 31 of the calendar year containing the fifth anniversary of the member's death, unless the provisions of subsection (d) of this section apply.

(d) If a member dies before distribution to him or her has commenced, and the member's interest is eligible to be paid in the form of a survivor annuity to a designated beneficiary, distributions are to be made over the life of that beneficiary or over a period certain not greater than the life expectancy of that beneficiary, commencing on or before the following:

(1) December 31 of the calendar year immediately following the calendar year in which the member died; or

(2) If the member's sole designated beneficiary is either the surviving spouse or a former spouse who, as an alternate payee under a Qualified Domestic Relations Order, is receiving 100 percent of the survivor benefit, distributions are to commence on or before the later of:

(A) December 31 of the calendar year in which the member would have attained age 70.5 (if born before July 1, 1949) or age 72 (if born after June 30, 1949); or
(B) December 31 of the calendar year immediately following the calendar year in which the member died.

(e) If a member dies before distribution to him or her has commenced and the survivor annuity provisions of subsection (d) of this section are not applicable, any designated beneficiary who is eligible to receive a distribution pursuant to the provisions of subsection (c) of this section may elect to have life expectancy treatment apply to the distribution for purposes of determining whether any portion of the distribution is an eligible rollover distribution: Provided, That any such election shall not delay the required distribution of the deceased member’s entire interest in the retirement system beyond December 31 of the calendar year containing the fifth anniversary of the member’s death as required by subsection (c) of this section: Provided, however, That the election is timely made in a form acceptable to the board on or before the following:

(1) December 31 of the calendar year immediately following the calendar year in which the member died; or

(2) If the member’s sole designated beneficiary is either the surviving spouse or a former spouse who, as an alternate payee under a Qualified Domestic Relations Order, is receiving 100 percent of the survivor benefit, election of life expectancy treatment must be made on or before the earlier of (A) or (B) below:

(A) The later of: (i) December 31 of the calendar year immediately following the calendar year in which the member died; or (ii) December 31 of the calendar year in which the member would have attained age 70.5 (if born before July 1, 1949) or age 72 (if born after June 30, 1949); or

(B) October 31 of the calendar year containing the fifth anniversary of the member’s death.

(a) General rule. — Upon learning of any errors, the board shall correct errors in the retirement system in a timely manner whether the individual, entity or board was at fault for the
Enr CS for HB 4540

error with the intent of placing the affected individual, entity and retirement board in the position
each would have been in had the error not occurred.

(b) *Underpayments to the system.* — Any error resulting in an underpayment to the
system, may be corrected by the member or retiree remitting the required employee contribution
or underpayment and the participating public employer remitting the required employer
contribution or underpayment. Interest shall accumulate in accordance with the legislative rule
162 CSR 7 concerning retirement board refund, reinstatement, retroactive service, loan and
correction of error interest factors and any accumulating interest owed on the employee and
employer contributions or underpayments resulting from an employer error shall be the
responsibility of the participating public employer. The participating public employer may remit
total payment and the employee reimburse the participating public employer through payroll
deduction over a period equivalent to the time period during which the employer error occurred.

If the correction of an error involving an underpayment to the system will result in the system
correcting an erroneous underpayment from the system, the correction of the underpayment from
the system shall be made only after the board receives full payment of all required employee and
employer contributions or underpayments, including interest.

(c) *Overpayments to the retirement system by an employer.* — When mistaken or excess
employer contributions, including any overpayments have been made to the retirement system
by a participating public employer, the board, upon learning of the error, shall credit the
participating public employer with an amount equal to the overpayment, to be offset against the
employer’s future liability for employer contributions to the system. If the employer has no future
liability for employer contributions to the retirement system, the board shall refund the erroneous
contributions directly to the employer. Earnings or interest shall not be returned, offset or credited
to the employer under any of the means used by the board for returning employer overpayments
to the retirement system.
(d) Overpayments to the retirement system by an employee. — When mistaken or excess employee contributions or overpayments have been made to the retirement system, the board, upon learning of the error, shall have sole authority for determining the means of return, offset or credit to or for the benefit of the individual making the mistaken or excess employee contribution of the amounts, and may use any means authorized or permitted under the provisions of section 401(a), et seq. of the Internal Revenue Code and guidance issued thereunder applicable to governmental plans. Alternatively, in its full and complete discretion, the board may require the participating public employer employing the individual to pay the individual the amounts as wages, with the board crediting the participating public employer with a corresponding amount to offset against its future contributions to the plan. If the employer has no future liability for employer contributions to the retirement system, the board shall refund said amount directly to the employer: Provided, That the wages paid to the individual shall not be considered compensation for any purposes of this article. Earnings or interest shall not be returned, offset, or credited under any of the means used by the board for returning employee overpayments.

(e) Overpayments from the retirement system. — If any error results in any member, retirant, beneficiary, entity or other individual receiving from the system more than he would have been entitled to receive had the error not occurred the board, upon learning of the error, shall correct the error in a timely manner. If correction of the error occurs after annuity payments to a retirant or beneficiary have commenced, the board shall prospectively adjust the payment of the benefit to the correct amount. In addition, the member, retirant, beneficiary, entity or other person who received the overpayment from the retirement system shall repay the amount of any overpayment to the retirement system in any manner permitted by the board. If the member, retirant, beneficiary or other person who received the overpayment is deceased and an annuity or lump sum benefit is still payable, the amount of the overpayment shall be offset against the benefit payment owed in a manner consistent with the board’s error correction policy. Interest
shall not accumulate on any corrective payment made to the retirement system pursuant to this subsection.

(f) Underpayments from the retirement system. — If any error results in any member, retirant, beneficiary, entity or other individual receiving from the retirement system less than he would have been entitled to receive had the error not occurred, the board, upon learning of the error, shall correct the error in a timely manner. If correction of the error occurs after annuity payments to a retirant or beneficiary have commenced, the board shall prospectively adjust the payment of the benefit to the correct amount. In addition, the board shall pay the amount of such underpayment to the member, retirant, beneficiary or other individual in a lump sum. Interest shall not be paid on any corrective payment made by the retirement system pursuant to this subsection.

(g) Eligibility errors. — If the board finds that an individual, employer, or both individual and employer, participating in the system is not eligible to participate, the board shall notify the individual and his or her employer of the determination, and terminate participation in the system. Any erroneous payments to the system shall be returned to the employer and individual in accordance with the methods described in subsections (c) and (d) of this section and any erroneous payments from the system to such individual shall be returned to the system in accordance with the methods described in subsection (e) of this section. Any erroneous service credited to the individual shall be removed. If the board determines that an individual or employer, or both, has not been participating in the system, but was eligible to and required to be participating in the system, the board shall as soon as practicable notify the individual and his or her employer of the determination, and the individual and his or her employer shall prospectively commence participation in the retirement system as soon as practicable. Service credit for service prior to the date on which the individual prospectively commences participation in the system shall be granted only if the board receives the required employer and employee contributions for such service, in accordance with subsection (b) of this section, including interest.
