I, ________________________________, (Insert your name)

being of sound mind, willfully and voluntarily declare that I want my wishes to be respected
if I am very sick and unable to communicate my wishes for myself. In the absence of my ability to
give directions regarding the use of life-prolonging intervention, it is my desire that my dying may
not be prolonged under the following circumstances:

If I am very sick and unable to communicate my wishes for myself and I am certified by
one physician, who has personally examined me, to have a terminal condition, I direct that life-
prolonging intervention that would serve solely to prolong the dying process be withheld or withdrawn. I understand that by signing this document I am agreeing to the REMOVAL or REFUSAL of cardiopulmonary resuscitation (CPR), breathing machine (ventilator), dialysis, and medically administered food and fluids, such as might be provided intravenously or by feeding tube. I want to be allowed to die naturally and only be given medications or other medical procedures necessary to keep me comfortable. I want to receive as much medication as is necessary to alleviate my pain. Nevertheless, oral food and fluids, such as may be provided by spoon or by straw, shall be offered as desired and can be tolerated.

I give the following SPECIAL DIRECTIVES OR LIMITATIONS: (Comments about funeral arrangements, autopsy, mental health treatment, and organ donation may be placed here. My failure to provide special directives or limitations does not mean that I want or refuse certain treatments.)

It is my intention that this living will be honored as the final expression of my legal right to refuse medical or surgical treatment and accept the consequences resulting from such refusal. I understand the full import of this living will.

The person I choose as my representative is:

(Insert the name, address, area code, and telephone number of the person you wish to designate as your successor representative. Please insert only one name.)

This appointment shall extend to, but not be limited to, health care decisions relating to medical treatment, surgical treatment, nursing care, medication, hospitalization, care and treatment in a nursing home or other facility, and home health care. The representative appointed by this document is specifically authorized to be granted access to my medical records and other health information and to act on my behalf to consent to, refuse, or withdraw any and all medical treatment or diagnostic procedures, or autopsy if my representative determines that I, if able to do so, would consent to, refuse, or withdraw such treatment or procedures. Such authority shall include, but not be limited to, decisions regarding the withholding or withdrawal of life-prolonging interventions, subject to the special directives and limitations as stated below:

1. IN A TERMINAL CONDITION: If I am very sick and unable to communicate my wishes for myself and I am certified by one physician, who has personally examined me, to have a terminal condition, I direct that life-prolonging intervention that would serve solely to prolong the dying process be withheld or withdrawn. Thus, if a physician has determined that I am in a terminal condition, I understand that completing this form would mean that I refuse cardiopulmonary resuscitation (CPR). It also means that I refuse or request the removal of a breathing machine (ventilator), dialysis, and medically administered food and fluids, such as might be provided intravenously or by feeding tube. I want to be allowed to die naturally and only be given medications or other medical procedures necessary to keep me comfortable. I want to receive as much medication as is necessary to alleviate my pain. 2. OTHER LIVING WILL SPECIAL DIRECTIVES OR LIMITATIONS ON THIS POWER:
(Comments about mental health treatment, funeral arrangements, autopsy, and organ donation
may be placed here. My failure to provide special directives or limitations does not mean that I
want or refuse certain treatments.)

In exercising the authority under this medical power of attorney, my representative shall
act consistently with my special directives or limitations as stated in this advance directive.

3. NOT IN A TERMINAL CONDITION: MEDICAL POWER OF ATTORNEY SPECIAL
DIRECTIVES OR LIMITATIONS ON THIS POWER: (Comments about tube feedings, breathing
machines, cardiopulmonary resuscitation, dialysis, mental health treatment, funeral
arrangements, autopsy and organ donation may be placed here. My failure to provide special
directives or limitations does not mean that I want or refuse certain treatments.)

I appoint this representative because I believe this person understands my wishes and
values and will act to carry into effect the health care decisions that I would make if I were able to
do so, and because I also believe that this person will act in my best interest when my wishes are
unknown. It is my intent that my family, my physician, and all legal authorities be bound by the
decisions that are made by the representative appointed by this document, and it is my intent that
these decisions should not be the subject of review by any health care provider or administrative
or judicial agency.
It is my intent that this document be legally binding and effective and that this document be taken as a formal statement of my desire concerning the method by which any health care decisions should be made on my behalf during any period when I am unable to make such decisions.

THIS MEDICAL POWER OF ATTORNEY SHALL BECOME EFFECTIVE ONLY UPON MY INCAPACITY TO GIVE, WITHHOLD, OR WITHDRAW INFORMED CONSENT TO MY OWN MEDICAL CARE.

(j) Any and all living will, medical power of attorney, and combined medical power of
attorney and living will documents executed pursuant to §16-30-3 and §16-30-4 of this code,
before the effective date of the amendments to these sections, remain in full force and effect. This
section is effective for a living will, medical power of attorney, or combined medical power of
attorney and living will document executed, amended, or adjusted on or after January 1, 2023.

Accordingly, all health care facilities and health care providers using a living will, medical power
of attorney, or combined medical power of attorney and living will form referenced in §16-30-4 of
this code shall update their forms on or before January 1, 2023.

§16-30-5. Applicability and resolving actual conflict between advance directives.

(a) The provisions of this article which directly conflict with the written directives contained
in a living will, medical power of attorney, or combined medical power of attorney and living will
executed prior to the effective date of this statute may not apply. An expressed directive contained
in a living will, medical power of attorney, or combined medical power of attorney and living will
by any other means the health care provider determines to be reliable shall be followed.

(b) If there is a conflict between the person’s expressed directives, the portable orders for
scope of treatment form, and the decisions of the medical power of attorney representative or
surrogate, the person’s expressed directives shall be followed.

(c) If there is a conflict between two advance directives executed by the person, the one
most recently completed takes precedence only to the extent needed to resolve the inconsistency.

(d) If there is a conflict between the decisions of the medical power of attorney
representative or surrogate and the person’s best interests as determined by the attending
physician when the person’s wishes are unknown, the attending physician shall attempt to resolve
the conflict by consultation with a qualified physician, an ethics committee, or by some other
means. If the attending physician cannot resolve the conflict with the medical power of attorney representative, the attending physician may transfer the care of the person pursuant §16-30-12(b) of this code.

§16-30-10. Reliance on authority of living will; physician orders for scope of treatment form, medical power of attorney representative or surrogate decisionmaker; and protection of health care providers.

(a) A physician, licensed health care professional, health care facility, or employee thereof shall not be subject to criminal or civil liability for good-faith compliance with or reliance upon the directions of the medical power of attorney representative in accordance with this article.

(b) A health care provider shall not be subject to civil or criminal liability for surrogate selection or good-faith compliance and reliance upon the directions of the surrogate in accordance with the provisions of this article.

(c) A health care provider, health care facility, or employee thereof shall not be subject to criminal or civil liability for good-faith compliance with or reliance upon the orders in a portable orders for scope of treatment form.

(d) No health care provider or employee thereof who in good faith and pursuant to reasonable medical standards causes or participates in the withholding or withdrawing of life-prolonging intervention from a person pursuant to a living will or combined medical power of attorney and living will made in accordance with this article shall, as a result thereof, be subject to criminal or civil liability.

(e) An attending physician who cannot comply with the living will, medical power of attorney, or combined medical power of attorney and living will of a principal pursuant to this article shall, in conjunction with the medical power of attorney representative, health care surrogate, or other responsible person, effect the transfer of the principal to another physician who will honor the living will, medical power of attorney, or combined medical power of attorney
and living will of the principal. Transfer under these circumstances does not constitute abandonment.

§16-30-13. Interinstitutional transfers.

(a) If a person admitted to any health care facility in this state has been determined to lack capacity and that person’s medical power of attorney has been declared to be in effect or a surrogate decisionmaker has been selected for that person all in accordance with the requirements of this article and that person is subsequently transferred from one health care facility to another, the receiving health care facility may rely upon the prior determination of incapacity and the activation of the medical power of attorney or selection of a surrogate decisionmaker as valid and continuing until such time as an attending physician, a qualified physician, a qualified psychologist, or an advanced nurse practitioner in the receiving facility assesses the person’s capacity. Should the reassessment by the attending physician, a qualified physician, a qualified psychologist, or an advanced nurse practitioner at the receiving facility result in a determination of continued incapacity, the receiving facility may rely upon the medical power of attorney representative or surrogate decisionmaker who provided health care decisions at the transferring facility to continue to make all health care decisions at the receiving facility until such time as the person regains capacity.

(b) If a person admitted to any health care facility in this state has been determined to lack capacity and the person’s medical power of attorney has been declared to be in effect or a surrogate decisionmaker has been selected for that person all in accordance with the requirements of this article and that person is subsequently discharged home in the care of a home health care agency or hospice, the home health care agency or hospice may rely upon the prior determination of incapacity. The home health care agency or hospice may rely upon the medical power of attorney representative or health care surrogate who provided health care decisions at the transferring facility to continue to make all health care decisions until such time as the person regains capacity.
(c) If a person with an order to withhold or withdraw life-prolonging intervention is transferred from one health care facility to another, the existence of such order shall be communicated to the receiving facility prior to the transfer and the written order shall accompany the person to the receiving facility and shall remain effective until a physician at the receiving facility issues admission orders.

(d) If a person with portable orders for scope of treatment form is transferred from one health care facility to another, the health care facility initiating the transfer shall communicate the existence of the portable orders for scope of treatment form to the receiving facility prior to the transfer. The portable orders for scope of treatment form shall accompany the person to the receiving facility and shall remain in effect. The form shall be kept at the beginning of the patient's transfer records unless otherwise specified in the health care facility's policy and procedures. After admission, the portable orders for scope of treatment form shall be reviewed by the attending physician and one of three actions shall be taken:

(1) The portable orders for scope of treatment form shall be continued without change;

(2) The portable orders for scope of treatment form shall be voided and a new form issued;

or

(3) The portable orders for scope of treatment form shall be voided without a new form being issued.

§16-30-19. Physician's duty to confirm, communicate, and document terminal condition; medical record identification.

(a) An attending physician who has been notified of the existence of a living will or combined medical power of attorney and living will executed under this article, without delay after the diagnosis of a terminal condition of the principal, shall take steps as needed to provide for confirmation, written certification, and documentation of the principal's terminal condition in the principal's medical record.
(b) Once confirmation, written certification, and documentation of the principal's terminal condition is made, the attending physician shall verbally or in writing inform the principal of his or her condition or the principal's medical power of attorney representative or surrogate, if the principal lacks capacity to comprehend such information and shall document such communication in the principal's medical record.
