3 heat, laser, electricity, or another form of energy;

4 (2) "Smoke evacuation system" means smoke evacuators, laser plume evacuators, or

10 contact with tissue by an energy generating device.

11 (b) On or before January 1, 2025, in order to protect operating room nurses, operating
12 room personnel, and patients from the hazards of surgical smoke, the Office of the Inspector
13 General shall propose rules for legislative approval in accordance with the provisions of §29A-3-
14 1 *et seq.* of this code requiring a health care facility licensed under this chapter that utilizes energy
15 generating devices to use a smoke evacuation system during any surgical procedure that is likely
16 to produce surgical smoke.

17 (c) Any health facility acting by or through its agents or employees that violates subsection
