108 totally disabled only if his or her physical or mental impairments are so severe that he or she is
109 not only unable to perform his or her previous work as an employee of the agency, but also cannot,
110 considering his or her age, education and work experience, engage in any other kind of substantial

118 the agency. If a member returns to active employment with the agency following a previous

119 termination of employment with the agency and the member has not received a refund of
120 contributions plus interest for the previous employment under §15-2A-8 of this code, service shall
121 be calculated separately for each period of continuous employment and years of service shall be
122 the total service for all periods of employment. Years of service shall exclude any periods of
123 employment with the agency for which a refund of contributions plus interest has been paid to the
124 member unless the employee repays the previous withdrawal, as provided in §15-2A-8 of this
125 code, to reinstate the years of service.

1 (a) A member may retire with full benefits upon attaining the age of 50 and completing 25
2 or more years of service or attaining the age of 52 and completing 20 years or more of service by
3 filing with the board his or her voluntary application in writing for retirement. A member who is less
4 than age 52 may retire upon completing 20 years or more of service: *Provided*, That he or she
5 will receive a reduced benefit that is of equal actuarial value to the benefit the member would
6 have received if the member deferred commencement of his or her accrued retirement benefit to
7 the age of 52.

8 (b) When the board retires a member with full benefits under the provisions of this section,
9 the board, by order in writing, shall make a determination that the member is entitled to receive
10 an annuity equal to two and three-fourths percent of his or her final average salary multiplied by
11 the number of years, and fraction of a year, of his or her service at the time of retirement: *Provided*,
12 That beginning July 1, 2019, the member is entitled to receive an annuity equal to three percent
13 of his or her final average salary multiplied by the number of years, and fraction of a year, of his
14 or her service at the time of retirement: *Provided, however*, That the amendments to this
15 subsection enacted during the regular session of the Legislature, 2019, apply to current retirants.

17 necessary to comply with the maximum benefit provisions of Section 415 of the Internal Revenue
18 Code and §15-2A-6a of this code. The retirant's annuity shall begin the first day of the calendar

19 month following the month in which the member's application for the annuity is filed with the board
20 on or after his or her attaining age and service requirements and termination of employment.

21 (c) In no event may the provisions of §5-16-13 of this code be applied in determining
22 eligibility to retire with either a deferred or immediate commencement of benefit.

23 (d) A member shall receive service credit for any disability service.
